University Foundations

HISTORY

Loma Linda University has grown out of the institution founded at Loma Linda, California, by the Seventh-day Adventist church in 1905. The original schools—Nursing and Medicine—have been joined by Allied Health Professions, Dentistry, Public Health, the Graduate School, and the Faculty of Religion.

The University, operated by the Seventh-day Adventist church, is committed to the vision of its founders and is sustained by its close association with the church.

Loma Linda University is a Seventh-day Adventist coeducational, health-sciences institution located in inland southern California. It is part of the Seventh-day Adventist system of higher education. Professional curricula are offered by the Schools of Allied Health Professions, Dentistry, Public Health, Medicine, and Nursing. Graduate programs in various biomedical sciences are offered by departments of the schools. The professional curricula of the University are approved by their respective professional organizations.

The most current campus census figures (July 1, 2002) indicate that the core of the combined faculties consists of 1070 full-time faculty. Part-time and voluntary teachers, largely clinicians in the professional curricula, bring the total to 2484. As of Autumn Quarter 2001, students from 83 countries are represented in the enrollment of 3,403.

PHILOSOPHY

As implied by its motto, “TO MAKE MAN WHOLE,” the University affirms these tenets as central to its view of education:

God is the creator and sustainer of the universe.

Mankind’s fullest development entails a growing understanding of the individual in relation both to God and society.

The quest for truth and professional expertise, in an environment permeated by religious values, benefits the individual and society and advances the ministry of the Seventh-day Adventist church.

Our Mission

Loma Linda University, a Seventh-day Adventist Christian health-sciences institution, seeks to further the healing and teaching ministry of Jesus Christ “to make man whole” by:

Educating ethical and proficient Christian health professionals and scholars through instruction, example, and the pursuit of truth;

Expanding knowledge through research in the biological, behavioral, physical, and environmental sciences and applying this knowledge to health and disease;

Providing comprehensive, competent, and compassionate health care for the whole person through faculty, students, and alumni.

In harmony with our heritage and global mission:

We encourage personal and professional growth through integrated development of the intellectual, physical, social, and spiritual dimensions of each member of the University community and those we serve.

We promote an environment that reflects and builds respect for the diversity of humanity as ordained by God.

We seek to serve a worldwide community by promoting healthful living, caring for the sick, and sharing the good news of a loving God.

To achieve our mission we are committed to:

OUR STUDENTS

Our primary responsibility is the education of students, who come from diverse ethnic and cultural backgrounds, enabling them to acquire the foundation of knowledge, skills, values, attitudes, and behaviors appropriate for their chosen academic or health care ministry. We nurture their intellectual curiosity. We facilitate their development into active, independent learners. We provide continuing educational opportunities for our alumni and professional peers. We encourage a personal Christian faith that permeates the lives of those we educate.

OUR FACULTY, STAFF, AND ADMINISTRATION

We respect our faculty, staff, and administration who through education, research, and service create a stimulating learning environment for our students. They contribute to the development of new understandings in their chosen fields. They demonstrate both Christian values and competence in their scholarship and professions.

OUR PATIENTS AND OTHERS WE SERVE

We provide humanitarian service through people, programs, and facilities. We promote healthful living and respond to the therapeutic and rehabilitative needs of people. We seek to enhance the quality of life for individuals in local, regional, national, and world communities.

OUR GOD AND OUR CHURCH

We believe all persons are called to friendship with a loving God both now and throughout eternity. We support the global mission of the Seventh-day Adventist church by responding to the need for skilled Christian health professionals and scholars. We seek to honor God and to uphold the values of the Seventh-day Adventist church and its commitment to awakening inquiry. We are drawn by love to share the good news of God expressed through the life and gospel of Jesus Christ and to hasten His return.

Nondiscrimination Policy

The University was established by the Seventh-day Adventist church as an integral part of its teaching ministry. It is committed to equal education and employment opportunities for men and women of all races and does not discriminate on the basis of handicap, sex, race, color, or national origin in its educational and admissions policies, financial affairs, employment programs, student life and services, or any University-administered program.

To this end, the University is in compliance with Titles VI and VII of the Civil Rights Act of 1964 as amended, and in substantial compliance with Title IX of the Education Amendments of 1972 (34 CFR 106 et seq.), Sections 503 and 504 of the Rehabilitation Discrimination in Employment Act of 1967, and Section 402 of the Vietnam Era Veterans Adjustment Act of 1974; and does not discriminate against any employees or applicants for employment on the basis of age or because they are disabled veterans or veterans of the Vietnam era. In addition, the University administers student programs without discrimination on the basis of age, except in those programs where age is a bona fide academic qualification for admission in accordance with the provisions of the Age Discrimination Act of 1975.

The University reserves constitutional and statutory rights as a religious institution and employer to give preference to Seventh-day Adventists in admissions and employment, including but not limited to 42 USC Secs. 2000e-1, 2000e-2; Sec. 6-15 of Federal Executive Order 11246; 41 CFR Sec. 60-1.5(5); 20 USC Sec. 1681 (a)(3); 34 CFR Secs. 106.12 (a)(b), 106.21, 106.31, 106.39, 106.40, 106.51, and 106.57; California Government Code Sec. 12926(d)(1); Title II, Division 4, Chapter 2, Sec. 7286.5 of the California Code of Regulations; the First Amendment to the United States Constitution; and Article I, Sec. 4, of the California Constitution. The University believes that Title IX regulations are subject to constitutional guarantees against unreasonable entanglement with or infringements on the religious teachings and practices of the Seventh-day Adventist church. The University expects students and employees to uphold biblical principles of morality and deportment as interpreted by the Seventh-day Adventist church. The University claims exemptions from the provisions of Title IX set forth in 34 CFR Secs. 106.12 (a)(b), 106.21, 106.31, 106.39, 106.40, 106.51, and 106.57.

Affirmative Action

The University routinely monitors its educational and employment practices regarding women, minorities, and the handicapped to ensure compliance with the law and University policy. The University's affirmative action policy is to provide equal access to admissions, educational programs and activities, financial aid, student services, and employment.

In compliance with Title IX of the Educational Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973, a grievance procedure has been established to process student complaints alleging violation of these regulations or of the University's policy of nondiscrimination based on gender or handicap. Inquiries concerning Title IX may be directed to the affirmative action officer. Employment-related discrimination complaints, including those filed by student employees, are processed in conformity with the provisions outlined in existing staff personnel policies. Complaints related to discrimination in academic areas are reviewed in conformity with the procedures established by the academic administration.

School Foundations

HISTORY

The School of Nursing, established in 1905, was the first in a group of schools which in 1961 became Loma Linda University. In 1949 the School of Nursing became a college-based program granting the baccalaureate degree. In 1970 the Associate in Science degree program was begun as an integral part of the School. The first master's degrees in nursing were granted in 1957. The School of Nursing received its first accreditation by the National League for Nursing (NLN) (61 Broadway, New York, NY 10006) in 1951. The most recent accreditations were by the California Board of Registered Nursing (1170 Durfee Avenue, Suite G, South El Monte, CA 91733) in 1998; the National League for Nursing Accrediting Commission (61 Broadway, New York, NY 10006) in 1999; and the Commission on Collegiate Nursing Education (One Dupont Circle NW, Suite 530, Washington, DC 20036-1120) in 1999.

Our Mission

The mission of the School of Nursing, in accord with the comprehensive mission of Loma Linda University, is the education of professional nurses from diverse ethnic, cultural, and racial communities who are dedicated to excellence in nursing science. Baccalaureate and graduate nursing programs contribute to the development of expert clinicians, educators, administrators, and researchers who benefit society by providing and improving delivery of whole-person care to clients— individuals, families, and groups. Committed to Christian service and distinctive Seventh-day Adventist ideals, the School seeks to reflect God’s love through its teaching and healing ministry.

GOAL OF UNDERGRADUATE PROGRAM

The goal of the undergraduate program is to prepare competent nurses who are committed to compassionate, Christian service. Upon completion of the baccalaureate degree program, the nurse will be able to:

1. Think critically and use systematic planning processes in assisting clients to achieve and maintain optimal wellness.
2. Respect the uniqueness of individuals from physiological, psychological, sociocultural, developmental, and spiritual perspectives; and recognize the individual’s right of self-determination.
3. Synthesize principles and concepts from nursing, the sciences, and the humanities to provide appropriate and effective client care in a variety of settings.
4. Provide optimum nursing care to clients through effective leadership and management and through collaboration with other members of the health care team.
5. Demonstrate professional competence; technical skills; and appropriate functioning in roles essential for implementing primary, secondary, and tertiary interventions in a variety of clinical settings.
6. Promote optimal wellness for self and clients.
7. Participate in efforts to improve professional nursing and health care delivery.
8. Demonstrate beginning research skills in clinical nursing practice, incorporating informed inquiry and appropriate application of nursing and other related research.
9. Be a contributing member of society by demonstrating continued growth in personal and professional competence and Christian values.
10. Demonstrate an academic foundation for graduate study.

GOAL OF GRADUATE PROGRAM

The goal of the graduate program is to prepare nurse leaders with a Christian perspective who will contribute to professional nursing through clinical practice, teaching, administration, and research. Upon completion of the master's degree program, the nurse will:

1. Use advanced knowledge acquired from nursing and cognate sciences as a basis for advanced nursing practice.
2. Use the research process to refine and expand nursing knowledge as a rationale for practice.
3. Collaborate with clients, health professionals, and organizations for the purpose of improving the delivery of health care and influencing health policy.
4. Demonstrate advanced knowledge and expertise in a selected clinical area and professional nursing role.
5. Improve nursing practice and health care by using effective leadership, management, and teaching skills.
6. Advance personally and professionally through continued inquiry and scholarly endeavor.
7. Demonstrate and promote high ethical and Christian values, respecting the uniqueness of others.
8. Have a foundation for doctoral studies.

Philosophy

In harmony with Loma Linda University and the Seventh-day Adventist church, the School of Nursing believes that the aim of education and health care is the development of wholeness in those served. Individuals, created by God to reflect the wholeness of His character, have been impaired by the entrance of sin, disease, and death. God's purpose is the restoration of each person to the original state at Creation. God works through human agencies to facilitate individual wholeness.

Nursing functions to assist individuals and societal groups to attain their highest potential of wholeness. Through a variety of roles, nurses put into practice a body of knowledge and a repertoire of skills to assist the human system with health problems. The School of Nursing provides an environment in which students and faculty can grow in professional competence and Christian grace.

PHILOSOPHY OF NURSING EDUCATION

In support of the philosophy, mission, and values of Loma Linda University and the philosophy, mission, and values of the School of Nursing, the faculty affirms the following beliefs:

- Learning is an interactive process which involves all of the learner's faculties.
- A learning environment nurtures the development of potential, promotes the maturing of values, cultivates the ability to think critically and independently, and encourages a spirit of inquiry.
- Clinical experiences are essential to the development of professional and technical nursing competence.
- Students — influenced by the effect of physiological, psychological, sociocultural, developmental, and spiritual variables on their lives — learn in different ways and bring different meanings to the learning experience.

General Information

PROGRAMS OF STUDY

The School of Nursing offers a baccalaureate degree program which is designed to prepare competent, beginning-level professional nurses who are committed to excellence in practice and to Christian principles. For those desiring it, an Associate in Science degree is available at the end of the junior year when the student meets the requirements of the California Board of Registered Nursing. Continuing education programs are approved by the California Board of Registered Nursing for continuing education requirements.

The master's degree program in nursing, offered by the Graduate School, is designed to prepare nurses for Christian leadership in clinical practice, teaching, administration, or research.

SCHOOL ADMINISTRATION

The dean of the School is the chief administrative officer and is assisted by the associate deans for the undergraduate and graduate programs and the assistant dean for financial affairs. The administration and faculty are responsible for determining curriculum requirements, admitting students, instructing and evaluating students, encouraging activities and programs pertinent to the welfare and interest of students, assessing fitness for promotion and graduation, and carrying out other functions essential to the overall operation of the School. Evaluation of the overall program of learning and instructional effectiveness, appropriate modification, and initiation of new measures are continually in progress by the faculty and the administration.

LEARNING ENVIRONMENT

The academic resources and the clinical facilities of the University constitute a rich educational environment for the nursing student, both in classroom instruction and in clinical experience. The University Medical Center and other hospitals and community agencies are used for student clinical experience. In the communities surrounding the University, the student finds other opportunities for learning.

STUDENT INVOLVEMENT

The School administration encourages the student to become actively involved in the Associated Students of Nursing. Student representatives are members of the Undergraduate Faculty Council and Student Council and may contribute to the administrative decision-making process formally or informally.

HONOR SOCIETY

Through the Nursing Honor Society, which was established in 1973, the School of Nursing further fosters academic excellence and the pursuit of Christian graces. In 1975, in recognition of the School's aim of excellence, this honor society, by vote of the national society, became an official chapter of Sigma Theta Tau, International, the international honor society for nursing. Installation of the Loma Linda University School of Nursing's Gamma Alpha Chapter occurred on April 11, 1976. Students and other nurses of excellence, upon meeting the established criteria, become members by invitation.

AGENCY MEMBERSHIP

The School of Nursing holds agency membership and actively participates in the following major professional organizations: American Association of Colleges of Nursing, National League for Nursing, and Western Institute for Nursing.

LICENSING

The National Council Licensure Examination for Registered Nurse (NCLEX-RN), which must be passed successfully to practice, is conducted throughout the year by the California Board of Registered Nursing. Application forms may be obtained from the Office of the Associate Dean of the Undergraduate Program; or from the state office at 1170 Durfee Avenue, El Monte, CA 91733. The nurse registered in the state of California may be granted licensure through endorsement by other states.

Admissions Information

PERSONAL QUALITIES

The admissions committees of the University put forth considerable effort to be assured that an applicant to any of the schools is qualified for the proposed curriculum and seems likely to profit from educational experience in this University. The Admissions Committee of the School of Nursing reviews evidence provided by the applicant of personal integrity, academic achievement, healthy lifestyle, self-discipline, and self-direction. The committee also looks for evidence that students possess the capabilities required to complete the full curriculum and to achieve the levels of competence required.

The School expects its students to demonstrate Christian ethical and moral standards in their conduct. In harmony with the University's emphasis on health and the practices of the Seventh-day Adventist church, applicants who use tobacco, alcoholic beverages, or narcotics should not expect to be admitted.

APPLICATION AND ACCEPTANCE

Where to write

Inquiry about admission and application to the undergraduate program in nursing should be addressed to:

Office of Admissions
School of Nursing
Loma Linda University
Loma Linda, CA 92350

Telephone inquiries may be made by calling:
909/558-4923
800/422-4558

Inquiry about admission to the graduate program should be addressed to:

Office of the Dean
Graduate School
Loma Linda University
Loma Linda, CA 92350

Telephone inquiries may be made by calling:
909/558-4529
800/422-4558

UNDERGRADUATE ADMISSIONS

Apply early

Correspondence and interviews should be scheduled well in advance of the cut-off dates. Undergraduate applicants are advised to submit application forms, test scores, letters of recommendation, and the application fee after at least one quarter of college work. Applicants seeking admission will need to have the application process completed by the dates indicated in the following.

Application deadlines

Fall Quarter admission application must be completed by March 15 of the year of desired admission.

Winter Quarter admission application must be completed by September 30 of the year prior to desired admission.

Spring Quarter admission application must be completed by December 15 of the year prior to desired admission.

Applications are invited from those interested in attending a Christian school of nursing and whose beliefs are consistent with the mission of Loma Linda University and the School of Nursing. Priority will be given to those coming from within the Seventh-day Adventist educational system.

Application fees

An application fee of \$60 and a testing fee of \$60 are charged. Other fees are itemized under the Schedule of Charges in the Financial Information section.

Application procedure

The procedure for application and acceptance is as follows:

1. Submit a formal application and letters of recommendation. Forms are included in the School of Nursing application packet, which can be obtained from the Office of Admissions.
2. Arrange with registrars of schools formerly or currently attended to provide the School of Nursing with transcripts of grades and with results of educational and aptitude tests.
3. Schedule an interview with the School of Nursing, Office of Admissions.

4. Arrange through the Office of Admissions to take the Nurse Entrance Test.

The application and all records submitted in support of the application become the property of the University.

Acceptance

Acceptance is governed by the following conditions:

1. Upon acceptance into the School, the applicant is required to make a nonrefundable advance deposit of \$100 to validate the acceptance. If this deposit is not received, the space will be given to another applicant.
2. The applicant submits required health records or certificate.

Applicants are accepted for a specified entering date. If the applicant does not enter the program at the time stated for admission, the application will become inactive unless the School receives written request to hold the application.

Reentrance

A student who discontinues studies in the School of Nursing for more than two quarters must reapply and meet the entrance requirements in force at the time of reentrance.

Incoming transcripts

The University accepts only official transcripts sent directly to Loma Linda University from the university, college, or high school issuing it.

Health requirements

Before admission is granted to new students or returning students who have not been in attendance for three or more consecutive quarters, proof of current immunizations and a TB test are required.

Identification number

All students will be assigned a University identification number and issued an identification card. The nine-digit ID number must appear on all checks payable to the University to ensure crediting to the proper account. The identification card will be used for library, health, and other services.

INTERNATIONAL STUDENTS

Admission of students from countries other than the United States is limited to those who (a) meet all requirements for admission; (b) submit official original-language transcripts and official English translations of transcripts and course work, evaluated by an organization approved by the Office of University Records; (c) furnish suitable recommendations from responsible persons; and (d) give evidence of ability to meet all financial obligations to the University during the proposed course of study. If English is not the student's native language, then (e) s/he must take the Test of English as a Foreign Language (TOEFL) and receive a score of 550 on the written examination or 213 on the computerized scoring; and

take the TOEFL Writing Examination (TWE) and receive a score of 5 or better.

A student visa is required for admission into the United States. To obtain a visa, the student will need to present to a United States Consul outside the United States a student-visa application (supplied by Loma Linda University), an acceptance letter from the School of Nursing, a valid passport, proof of sufficient finances, and proof of English proficiency. There are two types of student-visa applications: an I-20 application, used for an F-1 entry visa and F-1 visa status; and an IAP-66 (for sponsored exchange visitors), used for a J-1 entry visa and J-1 visa status.

International students currently at other schools in the United States will need to do a school transfer. To obtain the appropriate visa application either for a school transfer or as a new admittee, the student will need an acceptance letter; a \$4,000 advance deposit (refunded during the last quarter the student attends); proof of sufficient funds for the first year, with assurances that expenses will be met in subsequent years; and, for those transferring in, a letter authorizing the transfer.

Scholarships and assistantships are scarce for international students. On-campus employment is limited to no more than twenty hours a week while classes are in session and is authorized by the international student adviser. Off-campus employment requires Immigration and Naturalization Service authorization, which is difficult to obtain.

Once at the University, international students must maintain a full course of study, three of four terms each year, to maintain status. A full course of study is defined as at least 12 units for undergraduate students and at least 8 units for graduate students. Any exceptions to a full course of study must be cleared by the international student adviser.

ADMISSION REQUIREMENTS

Admission to the basic nursing program

The following are considered prerequisites for admission to the undergraduate program in nursing:

1. A high school diploma or its equivalent from an accredited secondary school.
2. High school algebra I and II with a grade of C or better, or college intermediate algebra.
3. One year of high school physics with a grade of C or better, or college introduction to physics.
4. Transcripts of at least the first full term of college course work, with a minimum G.P.A. of 3.0 on all college course work. Grades below a C are nontransferable.
 - A. Course descriptions or outlines will be required for clinical nursing courses in order for the School to determine the amount of transfer credit to be granted.
 - B. Science courses taken more than five years ago may not be accepted for transfer.

5. An interview with the director of admissions. The Admissions Committee is looking for individuals who reflect a high degree of personal integrity, dependability, self-discipline, intellectual vigor, and a caring and thoughtful manner.
6. International students, see “International Students” (page 24).
7. An entrance test, required of all incoming students who are not registered nurses. This examination must be taken at Loma Linda University School of Nursing.

Admission as a licensed vocational nurse

In addition to prerequisites listed for students admitted to the undergraduate program without a previous college degree, the following requirements apply:

1. The applicant must be a licensed vocational nurse in the state of California.
2. Course work will be evaluated to determine transfer status in clinical nursing classes.
3. The licensed vocational nurse may choose to complete 45 quarter units of nursing as prescribed by the California State Board of Registered Nursing and be eligible to sit for the NCLEX-RN. This option does not meet degree requirements.

For information and assistance regarding entrance, the student is invited to contact the School of Nursing, Office of Admissions.

Admission as a registered nurse

The applicant must have the following:

1. A high school diploma or its equivalent from an accredited secondary school.
2. All college/nursing transcripts with a 2.5 cumulative G.P.A. Grades below a C are non-transferable. Courses taken more than five years ago may not be accepted for transfer unless the registered nurse has been in active practice for at least one year during the past three years.
3. An interview with the director of admissions. The Admissions Committee is looking for individuals who reflect a high degree of personal integrity, dependability, self-discipline, intellectual vigor, and a caring and thoughtful manner.
4. International students, see “International Students” (page 24).
5. An Associate in Science degree or diploma from an accredited school of nursing.
6. A license to practice nursing in California as a registered nurse.
7. Completed all non-nursing requirements or their equivalents on the lower-division level. The applicant must have a minimum of 87 quarter (54 semester) units to be eligible for upper-division status.

If the registered nurse (RN) is a graduate of an accredited nursing program, the nursing credits will be accepted as equivalent to the School of Nursing lower-division courses. For unaccredited schools, or for additional information regarding transfer credit, see section on “Transfer Credit” (page 38).

Financial Information

GENERAL FINANCIAL PRACTICES

Before the beginning of each school year, the student is expected to arrange for financial resources to cover all expenses. Previous accounts with other schools or with the University must have been settled.

Acceptance deposit

Upon notification of acceptance, the applicant is required to make a deposit with the School of Nursing, Office of Admissions, to hold a place in the class. This amount is applied to the tuition and fees due at the initial registration.

Advance payment/Refunds

For students whose loans are pending (Stafford, Key Alternative, or other) at the time of registration, and which were not applied for at least thirty days prior to registration, a \$50-late payment fee will be charged. Tuition and fees are due and payable in full before or at registration each term. If a student withdraws from a course or all courses up to 60 percent into a quarter, tuition will be refunded on a pro-rata basis.

Withdrawal

To withdraw from a course(s), the student must complete a Change of Program form or, if the student is discontinuing the entire program, a Total Withdrawal form. The date the properly completed form is submitted to the Office of University Records will be the date of withdrawal used in calculating tuition refunds. These forms should be completed and submitted on the last day of class attendance.

Financial clearance

Students are expected to keep their financial status clear at all times. Financial clearance must be obtained: (a) at the initial registration; (b) at the beginning of each new term; and (c) before receiving a certificate or diploma or before requesting a transcript, statement of completion, or other certification to be issued to any person, organization, or professional board. To obtain financial clearance from the Student Finance Office, the student must have a zero (0) balance due on account. To obtain financial clearance from the Student Loan Collection Office, the student must be current on all loan-account payments and must have fully completed a loan exit interview (when the student ceases to be enrolled for at least half time).

Monthly statement

The amount of the monthly statement is due and payable in full within thirty days after the

statement date. An account that is more than thirty days past due is subject to a finance charge of .833 percent per month (10 percent per year). Failure to pay scheduled charges or to make proper arrangements will be reported to the Office of the Dean and may cause the student to be considered absent, discontinued, or ineligible to take final examinations.

Checks

Checks should be made payable to Loma Linda University and should show the student's identification number to ensure that the correct account is credited. In case a check is returned, there will be a \$25 returned-check fee assessed.

International students

Students coming from countries other than the United States are required to pay a \$4,000 deposit, which is applied to the final quarter's tuition and charges. All full-time international students are granted a \$50 per quarter tuition discount.

Veteran's benefits

Under Title 38 of the U.S. Code, Loma Linda University is approved for the training of veterans and other eligible persons. Information regarding eligibility for any of these programs may be obtained by calling 1-888-GIBILL1. Students receiving veteran's benefits *who fail for three consecutive quarters to maintain the cumulative grade point average (G.P.A.) required for graduation* will have their benefits interrupted; and the Veterans Administration (VA) office will be notified.

Application for benefits must be made directly to the VA and may be done via the Web. The Office of University Records serves as the certifying official for Loma Linda University. Students should contact the certifying official prior to their first enrollment certification. More information, with links to the VA Web site, is available on the LLU home Web page at <http://www.llu.edu>. The links for "Students" or "Prospective Students" open to veteran's information.

SCHEDULE OF CHARGES 2000-2001

The charges that follow are subject to change without notice.

TUITION**Tuition charge—undergraduate non-clinical, special, certificate, and part-time students**

- \$430 Credit, per unit
215 Audit, per unit

Tuition charge—graduate

- \$430 Credit, per unit
(See Graduate School BULLETIN for additional charges.)

Applied music charges

- varies The School of Nursing's tuition does not include applied music charges.

OTHER ACADEMIC CHARGES**Application (nonrefundable)**

- \$60 Testing fee
60 Regular
100 Deposit to hold place in class

Examinations

- \$215 Per unit credit (challenge, equivalency)
50 Early examination

Special fees

- \$297 Per quarter for NRSG 497 Advanced Clinical Experience

Finance

- \$50 Tuition installment
50 Late payment
10 Returned check

Registration

- \$50 Late-registration fee (after first day of class)
2 Per copy of student transcript

Miscellaneous expenses

- \$1,500 Estimated annual expense for items such as textbooks, supplies, student uniforms, equipment, etc.

Licensing examinations

- \$107 Application, includes fingerprinting (subject to change)
200 NCLEX-RN (National Council Licensure Examination for RN) (subject to change)
30 Interim permit to practice nursing before NCLEX-RN results

OTHER CHARGES**Housing and board**

- \$150 Lindsay Hall room, card, and key deposit (partially refundable)
695 Double occupancy
920 Single occupancy
150 Daniells Complex room, card, and key deposit (partially refundable)
695 Double occupancy
1011 Single occupancy
cost Breakage, damage, loss of University property
300 Estimated monthly meal costs (Limited cooking facilities are available in the dormitories.)

Miscellaneous charges

- \$50 Laboratory make-up fee

HOUSING APPLICATION

To request a housing application, write to:

Dean of Women
Lindsay Hall
Loma Linda University
Loma Linda, CA 92350
or
Dean of Men
Daniells Hall
Loma Linda University
Loma Linda, CA 92350

STUDENT FINANCIAL AID

It is necessary for students who are seeking financial assistance to file the Free Application for Federal Student Aid (FAFSA) as soon as possible for the current academic year. A financial aid packet for Loma Linda University, which must also be completed, can be obtained through Student Financial Aid. Consideration for financial aid is given on a first-come, first-served basis. Priority is given to applications received by March 2.

Deferred-payment plans

Through various nationwide organizations specializing in educational financing, low-cost, deferred-payment programs are available to students who want to pay education expenses in monthly installments.

Nursing and government loans

Loans are available both to undergraduate and graduate nursing students who are eligible to participate in government loan programs such as Stafford and Nursing Student Loan Program.

Nursing Education Loan Repayment Program

The Nursing Education Loan Repayment Program (NELRP) offers registered nurses substantial assistance (up to 85 percent to repay educational loans in exchange for service in eligible facilities located in areas experiencing a shortage of nurses. For eligibility information for this program and for the list of eligible health care facilities, check <http://bhpr.hrsa.gov/nursing/loanrepay.htm>

Scholarships and grants

The School of Nursing has a variety of scholarships that have been endowed by alumni and friends. Most of the scholarships are awarded on the basis of academic/clinical performance, financial need, and citizenship. The Dean's Office can provide the student with more information about each scholarship, as well as with application forms.

Alumni Scholarship

Black Student Scholarship

- Catherine Christiansen Scholarship
- Dean's Nursing Scholarship
- Ellen Rickard Memorial Scholarship
- Emori Nursing Scholarship
- Halpenny Memorial Scholarship
- Harry M. Woodall Scholarship
- Hispanic Student Scholarship
- Isabelle Wilson Rees Scholarship
- Lucile Lewis Scholarship
- Marjorie D. Jesse Scholarship
- Maxwell/Martin Scholarship
- Nelson Nursing Scholarship
- Rosie Voss Worthy Nursing Scholarship
- School of Nursing Scholarship
- School of Nursing Undergraduate Scholarship
- Webb Scholarship

MINORITY HEALTH PROFESSIONS EDUCATION FOUNDATION / REGISTERED NURSE EDUCATION SCHOLARSHIP PROGRAM

This scholarship program is designed to increase the number of appropriately trained professional nurses, to encourage underrepresented minorities to pursue the nursing profession, and to encourage professional nurses to practice direct patient care in medically underserved areas of California. Scholarships are awarded to nursing students throughout the state of California.

MAXWELL/MARTIN FUND

This fund is available to graduate students for assistance with tuition and fees, and is awarded on the basis of demonstrated financial need and/or scholastic achievement. It was established in honor of the late R. Maureen Maxwell, RN, Ed.D., emeritus professor and former director of the graduate division of the School of Nursing; and in honor of the late Dorothy M. Martin, RN, Ph.D., former professor of physiology and nursing research at Loma Linda University School of Nursing.

Student Life

The information on student life contained in this BULLETIN is brief. The *Student Handbook* more comprehensively addresses University and School expectations, regulations, and policies and is available to each registered student. Students need to familiarize themselves with the contents of the *Student Handbook*. Additional information regarding policies specific to a particular school or program within the University is available from the respective School.

FROM UNIVERSITY TO STUDENT

Loma Linda University was established to provide education in a distinctively Christian environment. Students are expected to respect the standards and ideals of the Seventh-day Adventist church. Prospective students have the freedom to choose or reject University or School standards, but the decision must be made before enrollment. Application to and enrollment in the University constitute the student's commitment to honor and abide by the academic and social practices and regulations stated in announcements, bulletins, handbooks, and other published materials; and to maintain a manner that is mature and compatible with the University's function as an institution of higher learning.

It is inevitable that the student will come under question if his/her academic performance is below standard; s/he neglects other student duties; his/her social conduct is unbecoming; or his/her attitudes demonstrate deficiencies such as poor judgment, moral inadequacy, or other forms of immaturity.

Procedures for evaluation of academic and nonacademic performance—as well as for the student to exercise his/her right of appeal—are described in each School's section of the *Student Handbook*. Grievances regarding both academic and nonacademic matters must be processed according to the grievance procedures in the *Student Handbook*. After a student files an appeal or grievance, the faculty assesses the student's fitness for a career in the chosen profession and recommends to the dean appropriate action regarding the student's continuance or discontinuance.

Prospective students who have questions concerning the University's expectations should seek specific information prior to enrollment.

WHOLE-PERSON HEALTH

The University regards the student from a cosmopolitan and comprehensive point of view—

- cosmopolitan, in that historically the University's global mission has promoted bonds and opportunities in education and service without regard to sex, national or racial origin, or geographical origin; and
- comprehensive, in that the University's concern for the welfare of the student traditionally has been an integrated concern for assisting the student in balanced development.

The University offers opportunities for students to complement their formal learning through participation in a variety of recreational, cultural, and other activities that can enrich group interaction and leadership experiences, increase interests in fields outside one's profession, develop talents, and enhance wholesome and memorable association with others.

Students from all schools of Loma Linda University may congregate and participate in the multifaceted programs offered that involve the wholistic concept of spiritual, social, intellectual, emotional, and physical wellness. These programs support Loma Linda University's motto, "To make man whole."

SPIRITUAL HEALTH

Opportunities for personal development and spiritual enrichment are provided in scheduled religious exercises and activities and in informal association with others who cherish spiritual values.

SOCIAL HEALTH

Situated within easy access of the ocean, mountains, and desert, the University provides numerous opportunities for social and recreational activities. A variety of University-, School-, and group-sponsored events encourage students to relax and become better acquainted with one another.

TEACHING LEARNING CENTER

Academic life at this University is rigorous, and inefficient study skills can add to the stress and strain. The Teaching Learning Center works with students to develop the reading, writing, analytical, and study skills needed to succeed in professional education. The center offers three ABLE programs that will help students face academic challenges by:

- A ssessing learning style and reading skills.
- B reaking through in reading speed and comprehension.
- L earning analytical and memory techniques and skills.
- E nhancing ability to take tests and examinations.

If a student is having scholastic difficulties, the center will assess the student and tailor a program designed to increase and/or improve his/her reading

speed and comprehension, writing clarity, analytical abilities, and other study skills—using the student's own course materials.

The center is located on campus in West Hall, Room B12. There is no charge to the student for assessment and evaluation. The regular student tuition package does not include the TLC tuition. However, TLC tuition is lower than regular tuition. For additional information, please call 909/558-8625.

UNIVERSITY STUDENT/FAMILY COUNSELING CENTER

The University Counseling Center offers a variety of confidential services to students and their families, including: individual, premarital, marital, family, and group counseling regarding issues of adjustment, anxiety, depression, etc.; skills in time management, studying, and test-taking; and 24-hour emergency crisis intervention. The center is located at 11374 Mountain View Avenue, Loma Linda. Full-time students may receive up to nine free visits. Call 909/558-4505 (or, on campus: 66028) to schedule an appointment or for more information.

STUDENT ASSISTANCE PROGRAM

The Loma Linda Student Assistance Program (LLSAP) provides professional and caring assessment and treatment for a variety of personal, family, work, and school-related issues. LLSAP clinicians will develop a treatment plan that may include free short-term counseling. If more extensive treatment is appropriate, clients are referred to a community therapist who specializes in the student's area of concern and who is covered by the student's health plan. All information is confidential. LLSAP clinicians will not release information without the written consent of the student, with the exception of matters that fall under mandatory reporting laws.

LLSAP, the only nationally accredited student assistance program in California, has provided state-of-the-art services to students since it was established in 1990.

Appointments may be scheduled during office hours (on-campus telephone—66050; off-campus—558-6050): Monday through Wednesday 8 a.m.-5 p.m.; Thursday 8 a.m.-8 p.m.; Friday 8 a.m.-1 p.m. Additional appointments times may be available upon request. All LLSAP services are free of charge.

PHYSICAL HEALTH

The University promotes physical fitness by encouraging recreational interests and by providing courses in field exercises, body building, and health instruction. An effort is made to interest each student in some recreational and health-building activity that may be carried over to enhance future life.

THE DRAYSON CENTER

The Drayson Center, the University's recreation and wellness center, is a state-of-the-art fitness facility.

The center includes a 21,000-square-foot multipurpose gymnasium, which may accommodate three full-size basketball courts or five volleyball courts or nine badminton courts. Circling the gymnasium's inside perimeter is a three-lane, elevated, rubberized running track. The facility also includes five racquetball courts with viewing areas, and fully equipped men's and women's locker rooms. Aerobics studios and cardiovascular and fitness areas are equipped for strength training, sports conditioning, body building, and power lifting. A large, ten-lane lap pool is designed to accommodate scuba diving classes. A 22-foot-high, 150-foot water slide ends in the nearby recreational pool. This shallow pool is wheelchair accessible. An outdoor jacuzzi is also available as well as indoor saunas in the men's and women's locker rooms. Included in the complex are a lighted, six-court tennis facility; a 400,000-square-foot multi-use recreational area with four softball fields; a half-mile-long track; and picnic and game areas.

The Drayson Center offers lifetime leisure classes (noncredit), such as low- and high-impact aerobics, scuba diving, tennis, weight training, karate, Tai-chi, and wilderness survival. Physical assessments are also available.

THE STUDENT HEALTH PLAN

Because the health, vitality, and welfare of its students and their dependents are of major concern to the University, Loma Linda University sponsors and funds the Student Health Plan, a health care plan that provides health service and medical coverage to all eligible students. It includes the following benefits: Student Health Service, 24-hour coverage, and generous coverage through preferred providers. The Student Health Plan provides a broad range of medical coverage but does not provide dental or vision coverage.

Student Health Service

Professional services are rendered by the Student Health Service, which provides basic care to students. The Student Health Service is located in the Center for Health Promotion in Evans Hall, corner of Stewart and Anderson streets. The hours are 8 A.M.–5 P.M. Monday through Thursday and 8 A.M.–2 P.M. on Friday. Services are free to students.

Supplementary medical-coverage policy

The Student Health Plan is an "excess" policy and only supplements other medical plans that provide benefits to the student. The student first obtains direct-provider payment, or reimbursement for out-of-pocket payments, from all other medical plans that provide benefits for the

student; only then does the student submit bills to the Student Health Plan for any remaining balance not covered by the other plans. The student must, therefore, follow all rules of his/her primary insurance in obtaining medical treatment. The student should contact the primary carrier to determine what procedure to follow.

Eligibility

The Student Health Plan automatically covers all full-time students at Loma Linda University in any clinical or academic program. Students are covered when enrolled for 7 units or more per quarter (or clock-hour equivalent, as defined by each School) for which Loma Linda University is receiving tuition and applicable fees (excluding load validation, "in progress" [IP] units, "employee tuition benefit" units, and "audit" units). Students enrolled for field practicum are eligible for coverage if registered for at least 240 hours per quarter.

Coverage during clinicals/rotations

Students who are accidentally injured while performing their clinical rotation duties do not have to pay their co-payment. If a covered student is doing a school-sponsored clinical or rotation out of the area and becomes ill or injured, any health service and medical care received which is covered by the Student Health Plan will still be covered as if the student were in the Loma Linda area.

Effective coverage date

An eligible student's coverage becomes effective on the day of orientation or the first day of class. Any purchased benefits will become effective on the day the Department of Risk Management receives the health plan application and payment within the open enrollment period, which is only the first two weeks of each calendar quarter.

Buy-in provision only during open enrollment

Eligible students are themselves automatically covered by the plan; however, noneligible students—those on summer break and part-time students (e.g., in a clinical program but enrolled for fewer than 7 paid units)—may, if they wish, purchase coverage.

Those wishing to buy in may enroll in the Student Health Plan only during the first two weeks of each new calendar quarter, that is, during the first two weeks of January, April, July, and October.

For further information about eligibility, the student may refer to the Student Health Plan booklet or call Risk Management.

Buy-in rates per quarter

For current quarterly buy-in rules, please contact the Department of Risk Management.

Student responsibility for payment—when, where

Neither Student Finance nor the Department of Risk Management bills the student's account or

sends out reminders. Funds received for buy-in coverage must be in the form of a check or money order (payable to the Department of Risk Management).

Coverage exclusion for “pre-existing” condition

If a student or patient has not maintained a continuous “creditable coverage” under another health plan during the twelve months prior to the coverage effective date, the following pre-existing-condition exclusion will apply:

This plan will not cover any medical condition, illness, or injury for which medical advice, diagnosis, care, or treatment was recommended or received by the student or patient during the six months prior to the effective date of health plan coverage. This exclusion will apply for twelve months from the student’s coverage effective date, unless such an individual remains treatment free during the six-month term beginning with the effective date of coverage. If the individual remains treatment free during the six-month term, the pre-existing-condition exclusion will apply only during that six-month period. This exclusion will not apply to pregnancy-related medical expenses or to medical treatment for a newborn or adopted child. For additional information, the student may contact Risk Management .

Preferred-provider plan, prescriptions, annual term, benefit limits

The Student Health Plan is a PPO preferred-provider plan. A list of preferred physicians and preferred medical facilities is available from Risk Management.

Benefits are limited by the terms and conditions set forth in the Student Health Plan booklet. The booklet is available from the Loma Linda University Department of Risk Management. For additional health plan information, phone the Department of Risk Management at 909/558-4386.

MALPRACTICE COVERAGE

Students are covered by malpractice coverage while acting within the course and scope of any approved clinical assignment.

GOVERNING PRACTICES

Residence hall

The School is coeducational and accepts both single and married students. Any single student who prefers to live on campus may do so.

Students are expected to live on campus unless they are:

- married,
- twenty-one years of age or older,
- in a graduate program, or
- living with their parents.

Students who wish to live off campus but who do not meet one of the foregoing requirements may petition the dean of students for an exception. This should be done well in advance of registra-

tion to allow the student adequate time to plan. Additional information about campus housing can be obtained from the University’s dean of students.

The student must keep the Office of the Dean of the School informed of his or her current address and telephone number and other contact numbers.

Marriage

A student who marries or changes marital status during the academic year must give the Office of the Dean advance written notice in order to keep the School’s records correct and up to date.

Professional apparel

Student uniforms are distinctive articles of dress specified by the department or School and are to be worn only in the manner prescribed and under the conditions specified. Students are to maintain their uniforms are to be maintained in clean, presentable condition. Information on the required professional apparel is furnished by the School.

Personal appearance

Students in the classroom or clinical environment must exhibit personal grooming consistent with expectations of the health care institution, the profession, the School, and the University. Specific guidelines are provided by the School.

Personal property

The School assumes no responsibility for the loss of the student’s personal property, instruments, or other items by theft, fire, or unknown causes. The student is expected to assume responsibility for the safekeeping of personal belongings.

Cars and transportation

Students are responsible for transportation arrangements and costs for off-campus assignments and clinical affiliations. All vehicles used to transport fellow students for off-campus assignments must be registered with Campus Safety and must have adequate public liability insurance—a minimum of \$100,000 bodily injury and property damage liability.

Student identification card

All students will be assigned University ID numbers and issued student ID cards. The University student ID card will be used for library, health, and other services.

In some cases, students are also required to have Medical Center ID badges. Information regarding this requirement can be obtained from the Office of the Dean of the School.

Substance abuse

Loma Linda University is committed to providing a learning environment conducive to the fullest possible human development. Because the University holds that a lifestyle that is drug, alcohol, and tobacco free is essential for achieving this goal, it maintains policies that seek a campus environment free of these substances. Students are expected to

refrain from substance abuse while enrolled at the University. Substance abuse is considered to be any use of tobacco or alcohol; any use of a nonprescription mood-altering substance that impairs the appropriate functioning of the student; or any misuse of a prescription or nonprescription drug. The School offers counseling and other redemptive programs to assist in the recovery from substance abuse. Continuation with the University will be dependent upon the abuser appropriately utilizing these programs. Failure to comply with these policies will result in discipline up to and including expulsion and, if appropriate, notification of law-enforcement agencies for prosecution.

Sexual harassment

Sexual harassment is reprehensible and will not be tolerated by the University. It subverts the mission of the University and threatens the careers, educational experience, and well-being of students, faculty, employees, and patients.

Because of the sensitive nature of situations involving sexual harassment and to assure speedy and confidential resolution of these issues, students should contact one of the School's designated,

trained sexual harassment ombudspersons.

A more comprehensive statement of the policy regarding sexual harassment can be found in the University *Student Handbook*.

Dismissal, grievance

Students who are involved in dismissal proceedings or who wish to file a grievance are referred to the grievance procedure as outlined—

1. in the Student Life section of this BULLETIN (see FROM UNIVERSITY TO STUDENT, par. 3);
2. in the School section of the *Student Handbook*.

Employment

It is recommended that students refrain from assuming work obligations that divert time, attention, and strength from the arduous task of training in their chosen career. A student wishing to work during the school year may petition for permission from the Office of the Dean. The decision of the Office of the Dean regarding such an employment request will be based on grades, class load, health, and School policy.

STUDENT ORGANIZATIONS

The following student organizations enable the student to participate in cultural, social, professional, and citizenship aspects of university life.

Associated Students of Nursing (ASN)

The ASN is a student organization which is sanctioned by the School of Nursing. This association is comprised of all the students of nursing and is administered by elected students and two faculty sponsors. The objectives of this organization are to serve as a channel for communication between students and faculty and to facilitate personal and professional growth by meaningful participation in all aspects of student life.

Loma Linda University Student Association (LLUSA)

The LLUSA has three purposes: to promote communication among the students, to present students' views to the administration, and to assist in the programming of social and religious activities. The LLUSA provides opportunities to develop and refine a wide range of professional leadership and fellowship skills. The office is located in the Drayson Center. For more information, call 558-4978.

Residence hall clubs

The student residence hall clubs serve the cultural, social, and religious interests of the students who live in residence halls.

Class organizations

The members of each class level organize, elect officers, and promote such projects and activities as constitute their major interests and concerns.

Honor society

Students and faculty of the School of Nursing, after meeting eligibility requirements, may become members of the Gamma Alpha Chapter of Sigma

Theta Tau, Incorporated, the international honor society for nursing.

AWARDS HONORING EXCELLENCE

Awards for excellence in nursing, scholastic attainment, and leadership ability are made available to students whose performance and attitudes reflect well the ideals and purposes of the School. Selection of students is based on the recommendation of the faculty to the dean.

FINEMAN AWARD

The Allan Fineman Memorial Award, established in 1974, is presented by the Fineman family in honor of their father, who was a patient in the University Medical Center. This award is based on outstanding caring traits in rendering professional nursing service.

RNBS AWARD

This award is presented to the senior registered nurse student who has demonstrated exceptional competence in scholarship and in the clinical practice of nursing.

DEAN'S AWARD

The Dean's Award, established in 1971, is presented to an outstanding student in each program on the basis of the student's demonstrated commitment to academic excellence and to the objectives of the School.

PRESIDENT'S AWARD

The President's Award, established in 1960, is presented annually in recognition of superior scholastic attainment and active participation in the student community, within the framework of Christian commitment. One recipient is selected from each school of the University.

Academic Policies and Practices

REGISTRATION

The student must register on the dates designated in the University calendar. Early registration is encouraged. The registration procedure includes planning course work with an adviser, recording registration information on forms furnished by the Office of University Records, completing requirements of the Student Health Service, having courses entered in the computer at the Office of University Records, obtaining financial clearance with the Student Finance Office, and having a student identification picture taken.

Late registration

Late registration is permitted only in case of a compelling reason. Late registration fees are charged after the first day of each quarter. No student may attend class without having registered. Registration must be completed within the first week of the quarter.

Withdrawal from a course(s)

Withdrawal from a course or courses must be authorized in writing. Forms for this purpose may be secured from the Office of University Records. Tuition will be refunded according to University policy.

Full-time status

An undergraduate student carrying 12 or more quarter units is considered to be a full-time student.

Course load

A student in good and regular standing may register for 16-17 quarter units of course work. Students of exceptional ability may register for additional units only with the consent of the associate dean for the undergraduate program. Correspondence, extension, and independent study constitute part of the student's course load.

Course change

A student may add, drop, or change courses during the first seven days of a quarter without academic or financial penalty. After that, students may withdraw from course work with penalties according to the deadlines published by the Office of University Records. Forms for changing courses may be obtained at the Office of University Records.

REGISTRATION CLASSIFICATION

Regular

The student who has satisfied all prerequisites and is registered for a standard curriculum

leading to a degree or certificate is a regular student. The regular student is subject to the academic standards and policies and pays the regular tuition rates.

Provisional

The student who is permitted to remove qualitative or quantitative deficiencies in order to qualify or requalify for regular standing is classified as a provisional student during the transition period. Courses are taken with consent of the associate dean for the undergraduate program, and tuition is paid at the regular rate.

Nondegree

A qualified individual may enroll for selected courses as a nondegree student with permission of the associate dean and if room is available in the course. No more than 12 units may be taken as a nondegree student. Tuition is paid at the regular rate for nondegree students.

Audit

Courses that are not laboratory courses may be taken for audit. Consent for enrollment as an auditor is subject to availability of classroom space. Tuition is paid at one-half the regular rate. The course taken for audit may not be converted to credit after the fourteenth day of the term, and the course cannot be repeated for academic credit.

ACADEMIC RESIDENCE

To qualify for an Associate in Science degree from Loma Linda University, the student must take a minimum of 24 units while in residence at the University; to qualify for a Bachelor of Science degree from Loma Linda University, the student must take a minimum of 32 of the last 48 units—or a minimum of 45 total units—while in residence. A minimum of three clinical nursing courses is required as part of these units.

SCHOLASTIC STANDING

Grades and grade points

The following grades and grade points are used in this University. Each course taught in the School of Nursing has been approved for either a letter grade or an S/U grade, and deviations from this are not allowed.

A	4.0	Outstanding performance.
A-	3.7	
B+	3.3	
B	3.0	Very good performance for undergraduate credit; satisfactory performance for graduate credit.
B-	2.7	
C+	2.3	
C	2.0	Satisfactory performance for undergraduate credit.
C-	1.7	Unsatisfactory performance for nursing courses and named cognates.
D+	1.3	
D	1.0	Minimum performance for which undergraduate credit is granted, except for nursing courses and required cognates.
F	0.0	Failure, given for not meeting minimal performance.
S	none	Satisfactory performance, counted toward graduation. Equivalent to a C grade or better in undergraduate courses, or a B grade or better in graduate courses. An S grade is not computed in the grade point average. A student may request a grade of S in only a limited amount of course work as determined by the school. This is done by the student's filing with the Office of University Records the appropriate form prior to fourteen calendar days before the final examination week. Once filed, the grade is not subject to change.
U	none	Unsatisfactory performance, given only when performance for an S-specified course falls below a C grade level in an undergraduate course or a B grade level in a graduate course. Similar filing procedures as given above are required. The U grade is not computed in the grade point average.
S/N	none	Satisfactory performance in a clock-hour course. Not included in total units. Same grading criteria as the S grade given for a credit hour course.

U/N	none	Unsatisfactory performance in a clock-hour course. Not included in total units. Same grading criteria as the U grade given for a credit hour course.
CR	none	Credit earned for Credit by Examination. Counted toward graduation/units earned, but not units attempted. Such credit cannot be counted for financial aid purposes.
NC	none	No credit for unsatisfactory performance for a Credit by Examination. Does not count for any purpose.

Notations

W	Withdrawal, given for withdrawal from a course prior to fourteen calendar days before the final examination week. Withdrawals during the first fourteen calendar days of a quarter or the first seven calendar days of a summer session are not recorded if the student files with the Office of University Records the appropriate form prior to the cut-off date. Withdrawals outside this time frame upon recommendation of the dean may be removed at the discretion of the vice president for academic affairs. In the case of nontraditionally scheduled courses, W will be given for withdrawal from a course prior to completion of 80 percent of the course, excluding the final examination period. Withdrawals during the first 20 percent of a course, excluding the final examination period, are not recorded if the student files with the Office of University Records the appropriate form prior to the date when this 20 percent of the course is completed. A student may withdraw only once from a nursing or named cognate course that s/he is failing at the time of withdrawal.
UW	Unofficial Withdrawal, indicates that the student discontinued class attendance after the close of registration but failed to withdraw officially.
I	Incomplete, given when the majority of the course work has been completed, and circumstances beyond a student's control result in the student being unable to complete the quarter. An I notation may be changed to a grade only by the instructor before the end of the following term (excluding the summer sessions for those not in attendance during that term). Incomplete units are not calculated in the grade point average. By the use of the petition form, the student requests an I notation from the instructor, stating the reason for the request and obtaining the signatures of the instructor,

the department chair, and the associate dean. The form is left with the instructor. The instructor will then report the I notation on the grade-report form, as well as the grade that the student will receive if the deficiency is not removed within the time limit. The petition form is then filed with the Office of University Records along with the grade-report form.

The notation I is not granted as a remedy for overload, failure on final examination, absence from final examination for other than an emergency situation, or a low grade to be raised with extra work.

- IP** In Progress, indicating that the course has a duration of more than a single term and will be completed by the student no later than the final term of the course, not to exceed five quarters for independent study and research courses (original quarter of registration plus four additional quarters). The student's final grade will be reported on the instructor's grade report at the end of the term in which the course is completed. If the course work is not completed within the five-quarter time limit, a grade of U will be given.
- AU** Audit, indicating registration for attendance only, with 80 percent class attendance considered a requirement. A request to change a credit course to audit or an audit course to credit may be made no later than the fourteenth calendar day after the beginning of a quarter or the seventh calendar day after the beginning of the summer session. (This does not address short summer courses lasting only a week or two.)
- AUW** Audit Withdrawal, given for withdrawing from the course or to indicate that the 80 percent class attendance requirement was not observed.

Course numbers

Courses numbered 001-099 are remedial and carry no college credit; 101-199 are freshman; 201-299, sophomore; 301-399, junior; 401-499, senior; 501-599, graduate; 601-699, graduate: seminar, research, thesis, or dissertation; 701-899, professional and clinical; 901-999, continuing education without academic credit.

A limited amount of 500-level course work may apply toward a baccalaureate degree, provided the instructor and the associate dean give permission. No courses numbered in the 700s, 800s, or 900s may apply toward a baccalaureate degree.

Unit of credit

Credit is recorded in quarter units. One unit represents ten class hours in lecture or thirty hours in laboratory practice (a ratio of 1:3).

NURSING COURSES

Nursing course grades

Most nursing courses in the undergraduate curriculum are divided into approximately equal components of theory and clinical laboratory practice. A grade for a nursing course represents a combination of the theory and the clinical laboratory grades. In order to pass a nursing course, a student must receive a grade equivalent to a C or above in both the theory and clinical laboratory sections of the course. A grade of C- or below places the student on provisional status and the course must be repeated.

Class preparation

Assignments are planned to require approximately two to three hours of preparation by the student for each hour of class.

Clinical laboratory

Laboratory assignment is under the direction of the instructor. In this assignment the student has supervised experience in the care of patients. Tardiness or unexcused absences from clinical laboratory is cause for failure. Absences due to extenuating circumstances (e.g., personal illness or death in the family) may be made up at the discretion of the instructor. When a clinical laboratory is made up during nonclinical time, there is a \$50 make-up fee.

Attendance

Attendance at class, clinical laboratory, and chapel is expected. Chapel attendance records are part of the student's permanent record.

Percentage breakdown for grading

The undergraduate division of the School of Nursing uses the following percentages for computing grades:

94 - 100%	A
91 - 93%	A-
88 - 90%	B+
85 - 87%	B
82 - 84%	B-
79 - 81%	C+
76 - 78%	C
71 - 75%	C-
68 - 70%	D+
63 - 67%	D
Below 62%	F

Repeating a course

Any nursing course or named cognate course taken at Loma Linda University School of Nursing in which the earned grade is C- or lower must be repeated before the student can progress to another course. Named cognates are: developmental psychology, epidemiology, nutrition, sociology, and statistics. When a student repeats a course, both the original and repeat grades are entered on the student's permanent record; but only the repeat grade and credit are computed in the grade point average and included in the total units earned.

Change of grade

A grade may not be changed by the instructor except when an error has been made in computing or recording the grade. Such changes are acceptable up to the end of the following term.

SPECIAL COURSE WORK

The following special course work is subject to approval by the appropriate offices in the School of Nursing.

Directed study

With the approval of the teacher and the adviser, directed study courses may be available.

Continuing education

Continuing education does not carry academic credit.

CREDIT BY EXAMINATION**Challenge/equivalency examinations**

An undergraduate student may meet academic requirements by passing an examination at least equal in scope and difficulty to examinations in the course. Undergraduate students with prior education in nursing or in another health care profession are eligible to challenge nursing courses required for California state licensure. The applicant's background in health care theory and clinical experience must be commensurate with the theory and skills required for the course. Challenge examinations in nursing courses include both a written examination covering theory and an examination of clinical competence.

Progression to the next level in the program is permissible only after successful completion of the challenge examination. A grade of S is recorded for challenge credit earned by examination only after the student has successfully completed a minimum of 12 units of credit at this University with a G.P.A. of 2.0 or above. A fee is charged for a challenge examination. For further information, see the "Schedule of Charges" (page 27).

CLEP examinations

Scores at or above the 50th percentile on the subject examinations are required for college credit from College Level Examination Program (CLEP) examinations.

Advanced Placement Program

Credit toward graduation may be accepted by the School for an entering student who has passed one or more examinations of the Advanced Placement (AP) Program with a score of 3, 4, or 5.

Waiver of a required course

A student may request the waiver of a requirement by either taking an examination or demonstrating competence when prior course work or experience fulfills the requirement but does not qualify for transfer of credit. Forms to

waive a requirement are available at the Office of the Associate Dean. A waiver does not reduce the credit-hour or residency requirements, does not carry academic credit, and may not be repeated.

TRANSFER CREDIT

Only academic course work with a minimum grade of C (2.0) will be accepted for transfer credit. Course descriptions or outlines will be required to determine the acceptability of a course or the amount of transfer credit to be granted for clinical nursing courses.

Lower-division credit

A maximum of 105 quarter units of lower-division credit will be accepted toward a Bachelor of Science degree.

Accredited schools and colleges

Credit is accepted from accredited schools of nursing.

Unaccredited colleges and international schools

Credit transferred from an unaccredited college is evaluated and accepted only after a student has earned 12 units of credit with a grade point average of C (2.0) or better at Loma Linda University. See further transcript information under "International Students."

Credit from foreign schools

Credit from foreign schools is given only for work that has been evaluated by the National Association of Credential Evaluation Services, Inc.

Armed forces schools

Credit for studies taken at a military service school is granted according to recommendations in the *Guide of the American Council on Education*. Appropriate documentation will be required.

Correspondence / distance course work

Course work taken at an accredited school is ordinarily accepted. Home Study International, Silver Spring, Maryland, is the officially affiliated correspondence school for Loma Linda University.

OUTGOING TRANSCRIPTS

The University provides transcripts to other institutions or to the student or graduate only upon the written request of the student or graduate.

The University reserves the right to withhold all information concerning the record of any student who is in arrears in the payment of accounts or other charges, including student loans. No transcripts will be issued until all of the student's financial obligations to the University, as defined in this BULLETIN, have been met.

ACADEMIC PROGRESSION

Progression is contingent on satisfactory scholastic and clinical performance and the student's responsiveness to the established aims of the School and the nursing profession.

Students shall be considered as making satisfactory progress as long as they maintain a C (2.0) G.P.A. and complete the requirements within the following time frame:

1st year	29 units
2nd year	48 units
3rd year	96 units
4th year	144 units
5th year	193 units

Standards of progress for VA students

Under Title 38 of the U.S. Code, Loma Linda University is approved for the training of veterans and other eligible persons. Information regarding eligibility for any of these programs may be obtained by calling 1-888-GIBILL1. Students receiving veteran's benefits *who fail for three consecutive quarters to maintain the cumulative grade point average (G.P.A.) required for graduation* will have their benefits interrupted; and the Veterans Administration (VA) office will be notified.

Application for benefits must be made directly to the VA and may be done via the Web. The Office of University Records serves as the certifying official for Loma Linda University. Students should contact the certifying official prior to their first enrollment certification. More information, with links to the VA Web site, is available on the LLU home Web page at <http://www.llu.edu>. The links for "Students" or "Prospective Students" open to veteran's information.

Individualized program plan for students with a B.S. or B.A. degree

A student who has a G.P.A. of at least 3.0, has no provisional grades in the previous academic year, and has completed all cognate courses for his/her level may accelerate through the nursing program if there is room in the desired courses. The acceleration plan must be arranged with the associate dean. Students who have withdrawn from a nursing class or required cognate because of failure will not be permitted to accelerate. The student will be returned to the regular schedule the quarter immediately after the G.P.A. falls below 3.0.

Probation status and dismissal

A grade of C (2.0) is the minimum passing grade for nursing and required cognate courses. Required cognates include: developmental psychology, epidemiology, nutrition, sociology, and statistics. Each nursing course and/or required cognate in which a student receives a C- or below must be repeated. A nursing course or required cognate may be repeated only once. A student with a C- or below in a nursing or required cognate is placed on probation.

A student on probation status will be required to take NRS 244 under the supervision of the Learning Assistance Program (LAP), have an

assessment done at the Teaching Learning Center (TLC), and meet regularly scheduled appointments with an academic adviser. Students on probation status may take only one clinical nursing course at a time. When the course work has been repeated successfully, the probation status is removed and the student is returned to regular status. Enrollment in clinical nursing courses will be terminated if a student receives two provisional grades in nursing or required cognates.

Reinstatement

A student terminated from clinical nursing courses for receiving a second provisional grade may be considered for reinstatement by the Academic Review Committee after successfully completing the course work outlined by them. A third provisional grade will result in the student's termination from LLUSN.

School records

All official documents related to student progress in the curriculum are a part of the student record. These records are confidential and are available only for academic purposes to School of Nursing faculty and staff. Access to individual student records is available to the student upon written request by the student to the Office of the Associate Dean.

Grade reports

Under the Buckley amendment of the Family Educational Rights and Privacy Act (1974), students have full rights of privacy with regard to their academic records, including their grade reports.

GRADUATION REQUIREMENTS

A candidate for a degree shall have:

1. Completed all requirements for admission to the respective curriculum.
2. Completed honorably all requirements of the curriculum, including specified attendance, level of scholarship, and length of residence.
3. Completed a minimum of 193.0 quarter units for the baccalaureate degree or 138.0 quarter units for the associate degree, with a minimum G.P.A. of 2.0 overall and in nursing.
4. Given evidence of moral character, of due regard for Christian citizenship, and of consistent responsiveness to the established aims of the University and of the respective discipline.
5. Discharged financial obligations to the University.

It is the responsibility of the student to see that all requirements have been met.

A student who completes the requirements for a degree at the end of the Spring Quarter is expected to be present at the University's ceremony for conferring of degrees and the presenting of diplomas. Permission for the conferral of a degree

in absentia is granted by the University upon recommendation of the dean of the School.

A student who completes the requirements for a degree at the end of the Summer, Autumn, or Winter Quarter is invited, but not required, to participate in the subsequent conferring of degrees. Degrees are conferred at graduations only.

The University reserves the right to prohibit participation in commencement exercises by a candidate who has not satisfactorily complied with all requirements.

STUDENT POLICIES

School of Nursing students are expected to adhere to the policies of the University as presented in the *Student Handbook* under the heading "Standards of Academic Conduct Policy."

ACADEMIC DISCIPLINE APPEAL PROCESS

Appealing a grade

If a student wishes to contest a grade, s/he should discuss the grade first with the instructor, where appropriate; then with the lead teacher; and finally with the associate dean. If the student is not satisfied, s/he may then appeal in writing to the Academic Review Committee, whose decision is binding.

Dismissal from school for academic reasons

The Academic Review Committee may vote that a student be dismissed from the School on the basis of his/her overall academic performance. Specific deficiencies in academic performance which may result in the Academic Review Committee recommending that a student be dismissed from the School include:

- a. receiving more than two provisional grades in nursing and/or cognate courses taken while enrolled as a student on this campus,
- b. unsafe practice(s) in the clinical setting, and/or
- c. academic dishonesty.

Academic due process

Actions recommended by the Academic Review Committee other than dismissal from the School are not subject to appeal beyond the committee. Actions that are not subject to appeal include, but are not limited to, requiring a student to do remedial work (including repeating a course) in a course in which the student received a failing grade in either the theory or clinical portion.

Grievance

If the student feels s/he has a grievance, i.e., believes s/he can show that the decision to drop him/her from the School is unfair, the student may file a grievance, as follows:

1. The student *must file a grievance within one quarter* from the date on which the appeal was denied by the Academic Review

Committee. A grievance will not be reviewed if it is not filed within this time frame.

The grievance process is not available to individuals--

- who fail to achieve admission or readmission to the School, or
 - who take exception to the terms and conditions of admission or readmission.
2. The student requests that the dean appoint a grievance committee to evaluate the situation and to make a recommendation to the dean. This request must be presented in writing and must include pertinent information regarding the situation.
 3. The dean, upon receipt of a written petition for grievance, appoints a committee of three faculty members selected from faculty of the School who were not previously parties to the review of this case. The fourth, nonvoting faculty member, from the Academic Review Committee, is also selected by the dean to meet with the Grievance Committee. The Grievance Committee may interview the student, faculty, clinical faculty, or other individuals who may be knowledgeable about the situation.
 4. The committee renders a written recommendation to the dean upon completion of their review.
 5. After reviewing the findings and recommendations of the Grievance Committee, the dean makes a decision, which is final and binding. The student is notified of this decision in writing.

NONACADEMIC DISCIPLINE APPEAL PROCESS

Discipline

It is inevitable that a student's *conduct* will come under question if the student:

- neglects nonacademic obligations or other student duties;
- displays social conduct that is unbecoming;
- demonstrates immaturity or deficiencies in judgment; and/or
- violates policies or regulations of the University and/or the School.

An illustrative list of the expectations regarding student conduct can be found in Section Two of the Loma Linda University *Student Handbook*. Alleged student misconduct is subject to review by the School of Nursing to determine whether discipline is appropriate. Discipline may include dismissal.

When a student fails to observe the University or School of Nursing policies or regulations which govern nonacademic and nonclinical general conduct, the following discipline procedures are instituted:

1. Upon receipt by the associate dean or dean of a serious allegation of misconduct, a student may be suspended from the School, pending and during the immediate investigation of the

allegations. Suspension shall mean that the student may not attend class, meet clinical appointments, attend campus events, or be present on campus without permission from the dean or designee.

The process for evaluating alleged misconduct follows:

2. The individual alleging the misconduct files a written allegation with the dean or the associate dean.
3. The dean or the associate dean then conducts an informal investigation. At the conclusion of this informal investigation, the dean or the associate dean (or designee):
 - decides that the allegations lack a substantive basis for further investigation; or
 - decides that there is a substantive basis to justify continuing the investigation, and refers the matter to the Student Conduct Committee (which is made up of faculty who are members of the Student Affairs Committee).

Student Conduct Committee

If the case is referred to the Student Conduct Committee, the committee takes the following steps:

1. The associate dean or the dean provides the committee with the allegations of misconduct and any other information pertaining to the alleged misconduct.
2. The Student Conduct Committee notifies the student in writing of the allegations and of the supporting information provided to the committee.
3. The Student Conduct Committee interviews the student, as well as those bringing the allegations. The student may appear before the committee in the meeting room with a representative from the faculty of the School of Nursing but may not be accompanied by family, friends, or legal counsel.

In addition, the committee may interview anyone else whom it determines can help clarify the merits of the allegations. The student may request that specific witnesses be allowed to appear before the committee in support of the student.

The student may present new information not previously submitted to the dean, the associate dean, or the Student Conduct Committee, if relevant to the allegations. It is the responsibility of the student to provide any new information or witnesses to the committee at the time the Student Conduct Committee meets; failure to do so will constitute grounds for the committee to discontinue its investigation.

4. The Student Conduct Committee deliberates on its findings. Neither the student nor his/her representative may be present during the deliberations.
5. The Student Conduct Committee may conclude either that:
 - there is no substantive evidence of the alleged misconduct, and then recommend to the associate dean that the allegations be dismissed; or
 - the allegations are supported by substantive evidence of general (nonacademic and/or nonclinical) misconduct, and then recommend to the associate dean that the original discipline be upheld or that further disciplinary measures be instituted, up to and including dismissal.
6. The associate dean gives the student written notification of his/her decision.

Grievance

If the student feels that the appeals process has not resulted in a satisfactory or fair resolution, s/he may proceed to grievance by following the steps outlined for "Grievance," discussed under the heading ACADEMIC DISCIPLINE APPEAL PROCESS, with the following exception: The student *must file the petition regarding the grievance no later than one month after the date the discipline was to take effect.*

Following a review by the Grievance Committee and the dean's consideration of their recommendation, the action of the dean is final and binding.

Curricula

The sections that follow describe the undergraduate curricula offered by the School of Nursing (Bachelor of Science degree and Associate in Science degree option) and the graduate curriculum offered by the Graduate School, and list the courses for each. School of Nursing students are expected to operate under the general policies of the University and School and the specific policies of the program in which they are enrolled. The School reserves the right to update and modify the curriculum to keep current with trends in health care.

Undergraduate Program

BACHELOR OF SCIENCE DEGREE

ASSOCIATE IN SCIENCE DEGREE OPTION

The primary aim of the School of Nursing undergraduate nursing program is to prepare competent practitioners who are committed to excellence in practice and to Christian principles. The faculty believe that baccalaureate education in nursing is the basis for professional practice. However, in response to both societal and students' needs, an Associate in Science (A.S.) degree option is provided for students after they have completed all nursing and general education content necessary to prepare for licensure as a registered nurse in California.

The basic professional curriculum leading to a Bachelor of Science (B.S.) degree in nursing is consistent with the faculty belief that students should be broadly educated. The focus is on the synthesis of nursing knowledge and skills with knowledge and skills from the humanities and sciences. Preparation for practice includes experiences in primary, secondary, and tertiary health care with clients from various age and cultural groups and socioeconomic strata. The curriculum is based on the Neuman Systems Model, which addresses stressors to the client system.

The undergraduate program begins with four quarters of preclinical work, which forms the general education and science base for nursing. These quarters may be completed at any accredited college or university. Following six quarters of clinical instruction and additional general education and cognate courses at Loma Linda University School of Nursing, the student is eligible to receive the A.S. degree and is prepared to write the state board examination. After completion of another two quarters, the student is eligible to receive the B.S. degree and is prepared for professional nursing practice at the baccalaureate level. The clinical experience develops the student's technical and theoretical capabilities in a progressive manner and within the context of the nursing process: assessment, analysis, planning, implementing, evaluating. Most of the baccalaureate nursing major is in the upper division, where clinical experience is gained in a broad variety of settings. Integral components of upper-division courses are leadership concepts and skills, research, health promotion, and activities which foster collaboration in planning health care with the family and all members of the health care team.

UNDERGRADUATE COURSES

Nursing course credits are offered in quarter units under the following formula:

1. One hour of instruction in theory each week throughout a quarter equals one quarter unit.
2. Three hours of clinical practice each week throughout a quarter equals one quarter unit.

PRECOURSE PREPARATION FOR NURSING (OPTIONAL)

These courses—required for students in the Bridge Program—prepare disadvantaged students to be successful in regular baccalaureate nursing classes. These courses do not count toward the nursing major.

NRSB 101 Critical Thinking and Learning Strategies for Nursing (2)

Focuses on the development of critical thinking methods, as well as learning strategies and study skills important to success in nursing. Emphasizes application of critical thinking, nursing process, study skills, and wholeness to student life and to nursing content.

NRSB 102 Science Principles Applied to Nursing (2)

Focuses on basic science concepts as applied to nursing. Includes a review of anatomy; and applies principles of physiology, microbiology, chemistry, and physics to critical thinking in nursing.

NRSB 103 Introduction to Math for Nursing (1)

Includes review of basic math, equivalent values, ratios, and proportions. Applies concepts to nursing situations in which medication dosage calculations are used. Computer-assisted instruction modules and a ninety-minute laboratory each week, utilized to assist students in developing the necessary skills in a supportive environment.

NRSB 104 Medical Terminology for Nursing (2)

Introduces basic medical terminology by study of prefixes, combining forms, and suffixes. Emphasizes understanding, interpreting, and spelling of singular and plural forms; pronunciation; and correct usage of terms in a variety of situations.

NRSB 105 Writing for Nursing (3)

Focuses on developing the writing skills necessary for nursing. Includes a review of principles of grammar and application of writing skills to a research paper related to a nursing topic. Includes a computer component that enables the student to search nursing data bases and apply word processing skills.

COURSES

LOWER-DIVISION

SOPHOMORE YEAR

Prerequisite for admission to sophomore-level nursing courses: successful completion of the freshman-year courses.

NRSB 214 Fundamentals of Professional Nursing (8)

Introduction to the profession of nursing. Emphasis on the basic health needs of the adult-client system, with the goal of optimal wellness/wholeness. Identification of stressors to the client system's lines of defense. Development of beginning nursing decision-making skills. Supervised experience in application of nursing knowledge to adult-client systems in acute-care settings. Socialization into the role of professional nursing, including exploration of historical, ethical, cultural, and legal aspects; and of current issues in professional nursing/health care.

NRSB 215 Nursing Pharmacology (2)

Overview of the major drug classifications. Introduction to the therapeutic use of drugs in the maintenance and strengthening of the client-system lines of resistance and defense.

NRSB 216 Basic Nursing Skills and Health Assessment (4)

Introduction to the basic nursing skills required to assess, maintain, and strengthen client lines of resistance and defense. Supervised practice in therapeutic communication skills and nursing measures to achieve optimal client wellness. Foundation for clinical decision-making and client education. General concepts and techniques for performing a head-to-toe examination and properly documenting assessment findings.

NRSB 217 Psychiatric Mental Health Nursing I (6)

Introduction to the care of client systems exhibiting psychiatric mental-health symptoms related to impaired lines of defense or resistance. Emphasis on primary, secondary, and tertiary interventions to strengthen lines of defense/resistance for the client.

Prerequisite: NRSB 214, 216.

NRSB 218 Nursing of the Adult and Aging Client (8)

Emphasis on the wholistic nature of the adult/aging client system in response to acute, short-term stressors. The nursing process used to assist the client system in achieving optimal wellness through strengthening lines of resistance and defense. Supervised practice in caring for the adult-client system in acute-care settings.

Prerequisite: NRSB 214, 216.

NRSG 219 Nursing of the Older Adult (4)

Focuses on older client systems experiencing normal aging. Examines age-related stressors to client variables—physiological, psychological, sociocultural, developmental, and spiritual. Guided learning experiences in nursing care of the older client in a variety of settings.

Prerequisite: NRSG 214, 216.

NRSG 224 Nursing Pathophysiology (4)

Overview of the physiological function of a client system under stress, the common stressors that threaten system stability/integrity, and the consequences that result to the individual whose lines of resistance and defense are breached. Foundation for understanding the rationale behind assessment findings and nursing intervention.

NRSG 225 LVN Bridge Course (4)

Designed for the LVN transfer student. Content includes introduction to baccalaureate nursing, physical assessment, and gerontology.

NRSG 244 Skills for Academic Success (1)

Assessment of student's learning needs, with individualized approaches to learning strategies essential for success in nursing education and practice.

NRSG 299 Directed Study (1-8)

Opportunity for clinical learning in a selected area of nursing.

Prerequisite: Consent of the instructor and the associate dean.

UPPER-DIVISION

JUNIOR YEAR

Prerequisite for admission to junior-level nursing courses: successful completion of the sophomore-year nursing courses.

NRSG 314 Nursing of the Childbearing Family (6)

Emphasis on primary prevention strategies that promote optimal wellness for the mother and neonate and on identification of stressors that influence the family's normal lines of defense. Application of the nursing process using a wholeness approach when caring for the maternal-fetal and maternal-infant dyads.

NRSG 315 Child Health Nursing (6)

Focuses on the client from infancy through adolescence within the family system. Wholistic nursing care emphasizing optimal wellness in relation to potential or actual stressors, including primary, secondary, and tertiary interventions. Individualization of the nursing process guided by physiological, psychological, sociocultural, developmental, and spiritual variables of the client system.

NRSG 316 Health Promotion Across the Lifespan (4)

Prepares the student to promote optimal wellness throughout the lifespan. Examines the impact of common lifespan stressors on students, clients, and family systems. Primary preventions—including theories of behavior change, motivation, and health education—applied to strengthen lines of defense.

NRSG 317 Nursing of the Adult and Aging Family I (7)

A continuation of NRSG 218 Nursing of the Adult and Aging Client. Exploration of relationships among client-system variables in the development of primary, secondary, and tertiary interventions for chronic stressors which require comprehensive nursing care. Guided practice in caring for the adult client system in a variety of community settings.

Prerequisite or concurrent: NRSG 217.

NRSG 318 Nursing of the Adult and Aging Family II (6)

Study of and participation in complex clinical nursing practice (critical care). Students utilize the nursing process in primary, secondary, and tertiary prevention with critically ill clients and their families. Emphasis on the scientific basis of the effects of stressors on the lines of defense and resistance. Promotes collaborative efforts of the members of the health care team in the care of the critically ill client.

Prerequisite: NRSG 314, 315, 316, 317.

NRSG 319 Seminar in Home Health Nursing (3)

Wholistic care of the client system across the life span within the home. Clinical experience focuses on acute and chronic stressors. Introduces community resources to facilitate continuity of care and to promote optimal wellness.

Prerequisite: NRSG 314, 315, 316, 317.

NRSG 320 Integration of Essential Concepts (6)

Designed to broaden current nursing knowledge through application of Newman's framework in client care—developing and evaluating health care plans as well as employing the nursing interventions of advanced pathophysiology.

Limited to experienced RNs as an alternative to NRSG 318.

NRSG 321 Professional Nursing Issues I (1)

Issues relating to licensure and entry into nursing practice of the registered nurse—including delegation, quality improvement, and managed care.

NRSG 336 Transition to Professional Nursing (3)

Issues and concepts associated with the evolving profession of nursing. Introduction to the Neuman model of nursing practice. Utilization of individualized learning experiences that build on the application of knowledge gained from past experience. Limited to RNs returning for B.S. degree.

NRSG 337 Strategies for Professional Transition (4)

Focuses on growth and enhancement of the professional nurse. Based on learning objectives for career growth, students assess and strengthen the application of skills in communication, research, professional responsibility, teaching and learning process, management, nursing process, and individual empowerment—for themselves and for clients Assessment/ development of learning objectives. Design of personal strategies to attain goals. Includes critical thinking, reflective journaling, and development of professional portfolio. Limited to RNs returning for B.S. or M.S. degree.

SENIOR YEAR

Prerequisite for admission to senior-level nursing courses: successful completion of the sophomore- and junior-year nursing courses.

NRS 414 Nursing Management (6)

The health care agency or nursing unit viewed as the core system, with lines of defense and lines of resistance. The management process as the set of interventions aimed at maintaining or restoring a state of equilibrium and order within the organization. The role of the first-line manager observed and some aspects experienced.

NRS 415 Psychiatric Mental Health Nursing II (6)

Delivery of psychiatric nursing care in a variety of clinical settings within the community. Guidance given in assessing stressors and developing primary, secondary, and tertiary interventions within populations at risk for psychosocial stress. Case management strategies and psychoeducational interventions practiced. Clinical experience directed toward optimizing lines of defense and resistance for families, groups, and communities.

NRS 416 Community Health Nursing (8)

Focus on the optimal wellness of the community as client. Intervention strategies emphasizing primary, secondary, and tertiary prevention with micro-/ macro-client systems. Skills developed in assessment; diagnosis; planning based on outcomes; and implementation within inter-, extra-, and intrasystem of both aggregate and geopolitical clients.

NRS 417 Professional Nursing Practice Elective (6)

Enhances the process of professional socialization from the academic to the practice setting by providing an opportunity for synthesis and application of theoretical knowledge and skills to a preceptored clinical experience selected by the student. Focus on using the nursing process to protect and promote intact lines of resistance and defense of individuals, families, and groups in diverse circumstances. Students develop personal learning objectives under the guidance of the instructor.

NRS 421 Professional Nursing Issues II (2)

Current issues regarding the baccalaureate nurse's responsibility to the nursing profession and society.

NRS 429 Clinical Nursing Research (4)

Preparation of knowledgeable consumers of nursing research who can apply the scientific research process utilizing quantitative and qualitative methods and who can critique research for use in the practice setting. Focuses on using research to discover ways the professional nurse can facilitate optimal wellness through retention, attainment, and maintenance of client-system stability.

NRS 499 Directed Study (1-8)

Opportunity for clinical experience in a selected area of nursing.

Prerequisite: Consent of the instructor and the associate dean.

Graduate Program

CLINICAL OPTIONS

MASTER OF SCIENCE DEGREE
POST-MASTER'S CERTIFICATES

COMBINED-DEGREES PROGRAMS

MASTER OF SCIENCE / MASTER OF PUBLIC HEALTH
MASTER OF SCIENCE / MASTER OF ARTS

NURSING ADMINISTRATION OPTIONS

POSTBACCALAUREATE CERTIFICATE
MASTER OF SCIENCE DEGREE

DOCTOR OF PHILOSOPHY DEGREE

A curriculum leading to a Master of Science degree with preparation for advanced nursing practice or nursing administration is offered through the Graduate School of Loma Linda University. Options available for advanced nursing practice are outlined below.

In graduate education, the student has opportunity for the intense pursuit of knowledge in a chosen field of interest. Teaching focuses on attainment of knowledge and development of advanced intellectual, clinical, leadership, and investigative skills.

Convenient class scheduling allows students to complete the program on a full-time or part-time basis. Core nursing courses are scheduled in late afternoons to accommodate working nurses. Applications may be initiated throughout the year.

A minimum of 53-68 quarter units is required to complete the program. Ideally the sequence begins in the Autumn Quarter but may commence any term during the year.

CLINICAL OPTIONS

The following clinical options are available within the graduate program in nursing:

- Adult Nurse Practitioner
- Family Nurse Practitioner
- Pediatric Nurse Practitioner
- Neonatal Critical Care Nurse Practitioner
- Adult and Aging Family
- Growing Family
- School Nursing

COMBINED-DEGREES PROGRAMS

Two Combined-Degrees Programs are available in the graduate program in nursing:

- *Advanced practice nursing (M.S.) and public health (M.P.H.)*
- *Advanced practice nursing (M.S.) and biomedical and clinical ethics (M.A.)*

NURSING ADMINISTRATION OPTIONS

The nursing administration option prepares nurses for leadership in a variety of organizational settings. The curriculum draws from the practice of nursing, from management, and from related fields; and includes administrative, research, and clinical components.

DOCTOR OF PHILOSOPHY DEGREE

The aim of the doctoral program in nursing is to prepare nurse scholars for leadership in education, health care administration, clinical practice, and research.

ADMISSION TO GRADUATE PROGRAM

Admission requirements

The following criteria are considered for admission to the graduate program in nursing:

1. A baccalaureate degree in nursing from an accredited program (or its equivalent).
2. A 3.00 undergraduate G.P.A. (on a 4.00 scale), both cumulative and in the nursing major.
3. A standardized interview with two graduate nursing faculty members.
4. The GRE general test (recommended).
5. Current California registered nurse license before enrollment in clinical nursing courses.
6. Nursing experience in the area of the desired major before beginning graduate study. One year of experience as a registered nurse is required to enter nursing administration. A minimum of one year of experience in critical care is a prerequisite to beginning the sequence of specialty courses in neonatal and critical care.
7. An A.S. degree or diploma in nursing from an accredited program and a B.S. or B.A. degree in another field can qualify the applicant for admission to the graduate program in nursing after s/he takes 37 quarter units of approved upper-division clinical nursing courses that include at least 8 quarter units of community health nursing with field experience. Many courses may be challenged.

PROGRAM REQUIREMENTS

Grades

A minimum G.P.A. of 3.00 must be maintained in all work taken for the degree and in the nursing major.

Thesis option

The student has the option of completing a thesis within the curriculum for the master's degree. The decision is made in consultation with the student's adviser.

Candidacy

Students are eligible for candidacy after completing 24 units of required graduate course work.

Examination

A comprehensive written examination is required. The examination must be taken before enrolling in the last 8 units of the program.

Curriculum change

To maintain quality education, the curriculum is subject to change without prior notice. Students in continuous attendance will meet graduation requirements of the BULLETIN under which they enter the Graduate School.

General requirements

For information about requirements and practices to which all graduate students are subject, the student should consult the Policies and General Regulations section of the Graduate School BULLETIN.

M.S. CORE COURSE REQUIREMENTS

For the Master of Science degree in nursing, the student must complete 53-68 quarter units. Elective courses are selected in consultation with the student's adviser.

The following core courses are required of all students: (20)

NRSG 508	Nursing in Community Systems	(2)
NRSG 515	Health Policy: Issues and Process	(2)
NRSG 516	Advanced Practice Role Development	(2)
NRSG 604	Nursing in Family Systems	(3)
NRSG 681, 682	Research Methods I, II	(3, 2)
NRSG 680	Intermediate Statistics	(3)
RELE 524	Christian Bioethics	(3)

Students who choose the thesis option also take:

NRSG 697	Research	(3)
NRSG 698	Thesis in Nursing	(2)

CLINICAL OPTIONS

The clinical options in nursing prepare nurse specialists who have advanced nursing knowledge, clinical expertise, and functional preparation. Clinical options are offered in eight areas.

NOTE:

A single asterisk (*) indicates a course that is offered alternate years.

Double asterisks (**) indicate that a clinical option is offered every other year or when the student pool is sufficient.

ADULT NURSE PRACTITIONER (M.S.)
(67 units)**

The *Adult Nurse Practitioner* clinical option prepares the nurse to exercise independent judgment in assessment, supervision, and management of sick adults—with consultation, collaboration, and supervision by primary-care physicians and nursing faculty. The curriculum prepares the student to be certified by the state of California and the American Nurses Association as a nurse practitioner.

Clinical focus

*NRSG 624	The Adult and Aging Family I	(2)
NRSG 651	Advanced Physical Assessment	(3)
*NRSG 561	Adult Primary Health Care I	(4)
*NRSG 562	Adult Primary Health Care II	(7)
*NRSG 563	Adult Primary Health Care III	(8)
*NRSG 564	Adult Primary Health Care IV	(6)
*NRSG 565	Adult Primary Health Care V	(4)

Required courses

PHSL 533	Physiology I	(4)
NRSG 544	Teaching and Learning Theory	(3)
NRSG 547	Management: Principles and Practices	(3)
NRSG 555	Pharmacology in Advanced Practice	(3)

**ADULT NURSE PRACTITIONER
POST-MASTER'S CERTIFICATE** (37 units)

The *Adult Nurse Practitioner* post-master's certificate program is designed to prepare the nurse with a master's degree in a clinical area of nursing to become certified by the Board of Registered Nursing as a nurse practitioner in the state of California.

Prerequisite: Graduate-level physiology and advanced physical assessment.

Required courses

NRSG 604	Nursing in Family Systems	(2)
(may be challenged)		
or		
NRSG 624	The Adult and Aging Family I	(2)
NRSG 555	Pharmacology in Advanced Practice	(3)
RELE 524	Christian Bioethics	(3)
NRSG 561	Adult Primary Health Care I	(4)
NRSG 562	Adult Primary Health Care II	(7)
NRSG 563	Adult Primary Health Care III	(8)
NRSG 564	Adult Primary Health Care IV	(6)
NRSG 565	Adult Primary Health Care V	(4)

FAMILY NURSE PRACTITIONER (M.S.)
(68 units)

The *Family Nurse Practitioner* clinical option prepares the nurse to exercise independent judgment in assessment, supervision, and management of sick families—with consultation, collaboration, and supervision by family practice physicians and nursing faculty. The curriculum prepares the student to be certified by the state of California and the American Nurses Association as a nurse practitioner.

Clinical focus

NRSG 651	Advanced Physical Assessment	(3)
NRSG 652	Family Primary Health Care I	(5)
NRSG 653	Family Primary Health Care II	(7)
NRSG 654	Family Primary Health Care III	(8)
NRSG 655	Family Primary Health Care IV	(8)
NRSG 656	Family Primary Health Care V	(4)

Required courses

PHSL 533	Physiology I	(4)
NRSG 544	Teaching and Learning Theory	(3)
NRSG 547	Management: Principles and Practices	(3)
NRSG 555	Pharmacology in Advanced Practice	(3)

**FAMILY NURSE PRACTITIONER
POST-MASTER'S CERTIFICATE** (40)

The *Family Nurse Practitioner* post-master's certificate program is designed to prepare the nurse with a master's degree in a clinical area of nursing to become certified by the Board of Registered Nursing as a nurse practitioner in the state of California.

Prerequisite: Graduate-level physiology and advanced physical assessment.

Required courses

NRSNG 604	Nursing in Family Systems (may be challenged)	(2)
NRSNG 555	Pharmacology	(3)
RELE 524	Christian Bioethics	(3)
NRSNG 652	Family Primary Health Care I	(5)
NRSNG 653	Family Primary Health Care II	(7)
NRSNG 654	Family Primary Health Care III	(8)
NRSNG 655	Family Primary Health Care IV	(8)
NRSNG 656	Family Primary Health Care V	(4)

PEDIATRIC NURSE PRACTITIONER (M.S.)
(67 units)

The *Pediatric Nurse Practitioner* clinical option prepares the nurse to exercise independent judgment in assessment, supervision, and management of sick children—with consultation, collaboration, and supervision by pediatric practice physicians and nursing faculty. The curriculum prepares the student to be certified by the state of California and the American Nurses Association as a nurse practitioner.

Clinical focus

*NRSNG 645	Growing Family I	(2)
NRSNG 651	Advanced Physical Assessment	(3)
*NRSNG 551	Pediatric Primary Health Care I	(4)
*NRSNG 552	Pediatric Primary Health Care II	(7)
*NRSNG 553	Pediatric Primary Health Care III	(8)
*NRSNG 554A	Pediatric Primary Health Care IV	(6)
*NRSNG 554B	Pediatric Primary Health Care V	(4)

Required courses

PHSL 533	Physiology I	(4)
NRSNG 544	Teaching and Learning Theory	(3)
NRSNG 547	Management: Principles and Practices	(3)
NRSNG 555	Pharmacology in Advanced Practice	(3)

**PEDIATRIC NURSE PRACTITIONER
POST-MASTER'S CERTIFICATE** (37 units)

The *Pediatric Nurse Practitioner* post-master's certificate program is designed to prepare the nurse with a master's degree in a clinical area of nursing to become certified by the Board of Registered Nursing as a nurse practitioner in the state of California.

Prerequisite: Graduate-level physiology and advanced physical assessment.

Required courses

NRSNG 604	Nursing in Family Systems	(2)
or		
*NRSNG 645	Growing Family I (may be challenged)	(2)
NRSNG 555	Pharmacology in Advanced Practice	(3)
RELE 524	Christian Bioethics	(3)
*NRSNG 551	Pediatric Primary Health Care I	(4)
*NRSNG 552	Pediatric Primary Health Care II	(7)
*NRSNG 553	Pediatric Primary Health Care III	(8)
*NRSNG 554A	Pediatric Primary Health Care IV	(6)
*NRSNG 554B	Pediatric Primary Health Care V	(4)

NEONATAL CRITICAL CARE CNS/
NURSE PRACTITIONER (M.S.)** (67 units)

The *Neonatal Critical Care Nurse Practitioner* clinical option specializes in the theory and practice of neonatal intensive-care nursing. The curriculum prepares the nurse to exercise independent judgment in assessment, supervision, and management of sick newborns—with consultation, collaboration, and general supervision of neonatologists and nursing faculty. Working with families, the nurse will fill the role of consultant and educator. The curriculum prepares the student to be certified by the state of California and the American Nurses Association as a nurse practitioner.

Clinical focus

*NRSNG 645	Growing Family I	(2)
*NRSNG 619	Neonatal Critical Care I	(4)
*NRSNG 620	Neonatal Critical Care II	(7)
*NRSNG 621	Neonatal Critical Care III	(8)
*NRSNG 622	Neonatal Critical Care IV: Practicum	(13)

Required courses

PHSL 533	Physiology I	(4)
NRSNG 544	Teaching and Learning Theory	(3)
NRSNG 547	Management: Principles and Practices	(3)
NRSNG 555	Pharmacology in Advanced Practice	(3)

**NEONATAL CRITICAL CARE CNS/
NURSE PRACTITIONER
POST-MASTER'S CERTIFICATE** (37 units)

The *Neonatal Critical Care Nurse Practitioner* post-master's certificate program is designed to prepare the nurse with a master's degree in parent/child nursing (or equivalent to the LLU clinical major in *Growing Family*) to become certified by the California Board of Registered Nursing as a nurse practitioner in the state of California.

Prerequisite: Graduate-level physiology and pharmacology.

Required courses

*NRSNG 645	Growing Family I	(2)
RELE 524	Christian Bioethics	(3)
*NRSNG 619	Neonatal Critical Care I	(4)
*NRSNG 620	Neonatal Critical Care II	(7)
*NRSNG 621	Neonatal Critical Care III	(8)
*NRSNG 622	Neonatal Critical Care IV: Practicum	(13)

ADULT AND AGING FAMILY (M.S.) (55 units)

The *Adult and Aging Family* clinical option prepares students for a variety of leadership roles in nursing, including clinical specialization and teaching. Clinical and theoretical content focuses on adult and aging clients and families. The program offers opportunities to develop knowledge and expertise for advanced practice in oncology nursing, coronary-care nursing, and gerontological nursing. The curriculum includes preparation for certification by the American Nurses Association as a

clinical nurse specialist in either medical-surgical nursing or gerontological nursing after completing the required practice hours.

Clinical focus

- *NRSG 624 The Adult and Aging Family I (4)
- *NRSG 626 The Adult and Aging Family II (4)
- *NRSG 628 Clinical Practicum: Adult and Aging Family (2-8)
- NRSG 651 Advanced Physical Assessment (3)

Required courses

- PHSL 533 Physiology I (4)
- NRSG 547 Management: Principles and Practices (3)
- Electives (3)

Teaching option

- NRSG 544 Teaching and Learning Theory (3)
- *NRSG 545 Teaching Practicum (3)
- *NRSG 546 Curriculum Development in Higher Education (3)

Advanced-practice option

- NRSG 544 Teaching and Learning Theory (3)
- PHSL 534 Physiology II (3)

GROWING FAMILY (M.S.) (55 units)

The *Growing Family* clinical option prepares students for a variety of leadership roles in nursing, including clinical specialization and teaching. The curriculum offers opportunity for the student to choose an emphasis providing advanced nursing care to families in the early phase of childbearing or in care of children. The curriculum includes preparation for certification by the American Nurses Association as a child and adolescent nurse specialist or as a maternal-child health nurse specialist after completing the required practice hours.

Clinical focus

- *NRSG 645 Growing Family I (4)
- *NRSG 646 Growing Family II (4)
- *NRSG 617 Clinical Practicum: Growing Family (2-8)
- NRSG 651 Advanced Physical Assessment (3)

Required courses

- NRSG 547 Management: Principles and Practices (3)
- PHSL 533 Physiology I (4)
- Electives (3)

Teaching option

- NRSG 544 Teaching and Learning Theory (3)
- *NRSG 545 Teaching Practicum (3)
- *NRSG 546 Curriculum Development in Higher Education (3)

Advanced-practice option

- NRSG 544 Teaching and Learning Theory (3)
- PHSL 534 Physiology II (3)

SCHOOL NURSING (M.S.) (53 units)
Public health nursing certificate required.

The *School Nursing* clinical option prepares students to meet both the requirements for a health services (school nurse) credential issued by the state of California and a Master of Science degree. It builds on the content of the baccalaureate degree and has a strong emphasis in advanced nursing theories, cultural and behavioral concepts, research, and nursing issues. The role of the school nurse encompasses a broad range of activities, including health-promotion education, illness prevention and detection, counseling and guidance, and specialized health services to students and their families.

Prerequisite: EDPC 460 Exceptional Child (or equivalent) (3).

- *NRSG 512 School Nursing Services (4-6)
(prerequisite:
audiometry certification)
- NRSG 544 Teaching and Learning Theory (3)
- *NRSG 645 Growing Family I (4)
- *NRSG 646 Growing Family II (4)
- *NRSG 546 Curriculum Development in Higher Education (3)
- NRSG 547 Management: Principles and Practices (3)
- NRSG 651 Advanced Physical Assessment (3)
- Electives (7-9)

COMBINED-DEGREES PROGRAMS

ADVANCED-PRACTICE NURSING (M.S.) AND PUBLIC HEALTH (M.P.H.) (80-81 units)

The M.S./M.P.H. combined-degrees program in *advanced-practice nursing and public health* prepares students for leadership roles in population-focused primary health care with emphasis on clinical specialization and/or teaching. The combined-degrees program is designed for individuals who wish to integrate advanced-practice nursing with population-based public health perspectives. The student may select a curriculum which prepares him/her for teaching, certification by the American Nurses Association as a Clinical Specialist in Community Health (CSCH), and/or certification by the National Commission for Health Education as a certified health education specialist (CHES). Students must meet admission and graduation requirements for both the School of Nursing and the Graduate School.

AND
BIOMEDICAL AND CLINICAL
ETHICS (M.A.) (80 units)**

The M.S./M.A. combined-degrees program in *advanced-practice nursing and biomedical and clinical ethics* is designed to facilitate more efficient completion of two graduate degrees for students with strong interest both in nursing and ethics. Students who complete this program will be prepared to make significant, interdisciplinary contributions to both fields. Students are required to gain separate acceptance into the M.A. degree. in biomedical and clinical ethics and the M.S. degree in nursing programs.

NURSING ADMINISTRATION OPTIONS

NURSING MANAGEMENT POST- BACCALAUREATE CERTIFICATE (28)

The postbaccalaureate certificate program in *Nursing Management* is designed for the nurse with a baccalaureate degree who is interested in a career in nursing management.

Admission requirements

The following are admission requirements for the program:

1. Current employment in a first-level or middle-management position, or employment in a nursing management position for at least two of the past five years.
2. Current California nurse licensure.
3. Baccalaureate degree with a major in nursing, with a cumulative G.P.A. of 3.0.

Required courses

NRSG 515	Health Policy: Issues and Process	(3)
NRSG 547	Management: Principles and Practice	(3)
HADM 514	Health Care Economics	(3)
or		
HADM 564	Health Care Finance	(3)
HADM 528	Organizational Behavior in Health Care	(3)
HADM 541, 542	Financial Accounting of Health Care Organizations I, II	(3, 3)
RELE 524	Christian Bioethics	(3)

Electives

Electives may be chosen in the areas of marketing, finance, legal and regulatory issues, and economics.

Nursing administration (M.S.) option

Upon completion of the certificate program, the student may apply for acceptance into the M.S. degree program in nursing administration. Courses completed with a grade of B or higher will apply toward the M.S. degree.

NURSING ADMINISTRATION (M.S.) (53)

The master of science degree *Nursing Administration* option prepares nurses for leadership in a variety of organizational settings. The curriculum draws from the practice of nursing, management and related fields, and includes administration, research, and clinical components.

Administration focus

NRSG ___	Clinical course	(3)
*NRSG 541	Nursing Administration Practicum I	(3)
*NRSG 542	Nursing Administration Practicum II	(3)
NRSG 547	Management: Principles and Practice	(3)

Required courses

HADM 541, 542	Financial Accounting of Health Care Organizations I, II	(3, 3)
HADM 528	Organizational Behavior in Health Care	(3)
HADM 514	Health Care Economics	(3)
or		
HADM 564	Health Care Finance	(3)
Electives		(5)

THE PH.D. DEGREE PROGRAM IN NURSING

The doctorally prepared nurse scientist who completes this program should be committed to the generation of knowledge critical to development of nursing science and practice. Graduates join with other nursing leaders in furthering the development of nursing science and improving health care delivery throughout the world.

THE CURRICULUM

The doctoral degree program is designed to provide an in-depth understanding of knowledge development within the discipline of nursing through philosophical, theoretical, and scientific methods of inquiry. The core courses of the program emphasize these three areas. In addition to the core courses, each student is encouraged to select an individually focused area of concentration that will support the student's chosen area of expertise in nursing and that will focus her or his area of advanced inquiry. The area of concentration may fit with established research programs of School of Nursing faculty and may also take advantage of graduate courses throughout the University.

Potential areas of concentration include: symptom management, family caregiving, quality of life, spirituality in health care, nursing education, biomedical and clinical ethics, physiological nursing, health policy, health care leadership, and behavioral health sciences.

The Ph.D. degree in nursing has a credit-hour requirement of 95-quarter units beyond the Master of Science degree. Twenty-four of the units are for dissertation; the remaining units are divided among core courses, area of concentration, religion, and electives. The program can be completed in eleven quarters of full-time study or may be extended up to seven years to accommodate the part-time student. Classes are scheduled to accommodate the needs of adult students. Some seminar experiences are supplemented with on-line distance learning.

ADMISSION CRITERIA

The following criteria are considered for admission to the doctoral program in nursing:

1. Preference will be given to applicants with a master's degree in nursing.
2. The grade-point average minimum is 3.5 on a 4.0 scale or equivalent at the master's level.
3. The Graduate Record Examination must have been taken within the past five years with satisfactory scores indicating advanced verbal and quantitative skills.
4. A minimum TOEFL score of 550 must be earned by international students.
5. A personal interview is required.
6. Evidence of scholarly work must be provided.

Progression criteria

The following sequential elements are required for progression in the doctoral program:

1. Area of concentration developed and approval of student's proposed program of study by end of the first year of full-time study.
2. Written and oral qualifying examination after completion of all required course work.
3. Advancement to candidacy.
4. Successful defense of research proposal.
5. Successful defense of dissertation.

OUTLINE OF COURSES

PHILOSOPHY OF SCIENCE AND NURSING

- | | | |
|-----------|---|-----|
| PHIL 616 | Seminar in Philosophy of Science I | (3) |
| NRSNG 524 | Philosophical Foundation of Nursing Science | (2) |

THEORY DEVELOPMENT

- | | | |
|-----------|-----------------------------------|-----|
| NRSNG 575 | Strategies for Theory Development | (4) |
|-----------|-----------------------------------|-----|

| NRSNG 664 | Nursing Science Seminar concentration courses | (4, 4, 4) |
| | Electives | (8-12) |
| NRSNG 697 | Research (20 units required) | (1-4) |
| NRSNG 699 | Dissertation | (4) |

COURSES

NRSNG 508 Nursing in Community Systems (2)

Utilizes the perspective of population-focused primary health care and examines theoretical frameworks and strategies for working with population groups in community systems. Functions of assessment, planning, intervention, and assurance in providing advanced-practice nursing to populations at risk.

NRSNG 509 Guided Study (1-6)

Opportunity for study in a particular area of nursing, under faculty direction.

NRSNG 512 School Nursing Services (4-6)

Explores the role of the school nurse and the administrative styles in school health programs. School health program planning. Methods of implementation and evaluation examined within the context of school systems, family systems, and health care-delivery systems. Students registered for 5 or 6 units are involved in clinical experience designed to develop competencies in school nursing. Offered alternate years.

NRSNG 515 Health Policy: Issues and Process (2)

Examines the impact of the sociopolitical system. Current trends and issues affecting the changing profession of nursing; as well as the impact of nursing on these systems in the workplace, government, professional organizations, and the community.

NRSNG 516 Advanced-Practice Role Development (2)

Transition into the advanced-practice nursing role examined through consideration of the history, theoretical bases, role competencies, selected professional strategies, and legal requirements necessary for role enactment.

NRSNG 541, 542 Nursing Administration Practicum I, II (3, 3)

Observation and practice in selected levels of nursing administration.

Prerequisite: NRSNG 543; HADM 528 or equivalent; 6 quarter units of clinical nursing.

NRSNG 544 Teaching and Learning Theory (3)

Exploration of the components of the teaching-learning process. Opportunity provided for students to practice specific teaching strategies.

NRSNG 545 Teaching Practicum (3)

Designed to assist the student in developing the ability to teach nursing in the clinical area of choice. Emphasis on the nurse-teacher as facilitator of learning. Integration of knowledge and skills related to educational methodology and clinical nursing. Practice in teaching students in clinical and classroom settings.

Prerequisite or concurrent: NRSNG 544, 546; and 12 quarter units of clinical nursing.

NRSNG 546 Curriculum Development in Higher Education (3)

Examines principles of curriculum development—including the selection, organization, and evaluation of learning experiences—with emphasis on the nursing major. Examines the nature, place, and interrelationship of general and specialized education in higher education.

NRSG 547 Management: Principles and Practices (3)

Analysis of administrative issues in health care settings. Organizational complexities, power distribution, political strategies, interdependence of management, and clinical teams. Focuses on the application of selected management theory to the practice of nursing.

NRSG 551 Pediatric Primary Health Care I (4)

Introduction to the problem-oriented approach to assessment and diagnosis. Prepares the nurse practitioner student as primary-care clinician, evaluator, and educator through integration of the traditional nursing and nurse practitioner roles.

Prerequisite: NRSG 651.

NRSG 552 Pediatric Primary Health Care II (7)

Includes aspects of health maintenance and promotion and evaluation of common health problems, integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRSG 551.

NRSG 553 Pediatric Primary Health Care III (8)

Continues the aspects of health maintenance and promotion and evaluation of common health problems—integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRSG 552.

NRSG 554A, 554B Pediatric Primary Health Care IV, V (6, 4)

Final course in the pediatric primary health care series, aimed at preparing the nurse practitioner student to function independently and collaboratively with other health professionals.

Prerequisite: NRSG 553.

NRSG 555 Pharmacology (3)

Overview of the major drug classifications and discussion of the therapeutic use of drugs in the maintenance and strengthening of the client system lines of resistance and defense.

NRSG 561 Adult Primary Health Care I (4)

Introduction to the problem-oriented approach to assessment and diagnosis. Prepares the nurse practitioner student as primary-care clinician, evaluator, and educator through integration of the traditional nursing and nurse practitioner roles.

Prerequisite: NRSG 651.

NRSG 562 Adult Primary Health Care II (7)

Aspects of health maintenance and promotion and evaluation of common health problems integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRSG 561.

NRSG 563 Adult Primary Health Care III (8)

Continues the aspects of health maintenance and promotion and evaluation of common health problems—integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRSG 562.

NRSG 564, 565 Adult Primary Health Care IV, V (6, 4)

Final course in the adult primary health care series, aimed at preparing the nurse practitioner student to function independently and collaboratively with other health professionals.

Prerequisite: NRSG 563.

NRSG 604 Nursing in Family Systems (2, 3)

Concepts and theories guiding advanced nursing practice to families, including systems; stress and coping; role; change; family-assessment models. Clinical experience concurrent.

NRSG 617 Clinical Practicum: Growing Family (2-8)

Designed to assist the student in developing expertise as a clinical specialist in a selected area of nursing practice, the Growing Family. Includes intensive clinical practice under the guidance of a preceptor.

Prerequisite: NRSG 645, 646.

NRSG 619 Neonatal Critical Care I (4)

Focuses on maternal conditions that affect the fetus/newborn during the perinatal period. Concepts and principles of genetics, embryology, growth and development, psychosocial aspects, and physiology/pathophysiology as they relate to the caregiver role of the clinical nurse specialist/practitioner.

Prerequisite: NRSG 645.

NRSG 620 Neonatal Critical Care II (7)

Focuses on the physiology of the well neonate and pathophysiology of the critically ill neonate. Concepts and principles of neonatal disease entities and disorders studied as they relate to clinical management strategies and the caregiver role of the clinical nurse specialist/practitioner.

Prerequisite: NRSG 619.

NRSG 621 Neonatal Critical Care III (8)

Prepares students for their management role as practitioner and clinical specialist, utilizing the theories and principles of nursing and medical management, problem solving, record keeping, and role definition.

Prerequisite: NRSG 620.

NRSG 622 Neonatal Critical Care IV: Practicum (13)

Synthesizes concepts, principles, theories, knowledge, and skills from the preceding advanced neonatal critical care nursing courses to the practice setting.

Prerequisite: NRSG 621.

NRS 624 The Adult and Aging Family I (4)

Addresses concepts and theories relevant to nursing practice with adults who are experiencing/responding to health-related problems associated with an acute or chronic illness, or the aging process. Focuses on promoting effective individual and family coping. Clinical experience concurrent.

NRS 626 The Adult and Aging Family II (4)

Focuses on the aging adult in the context of family and contemporary society. Issues related to the needs and care of elderly individuals, factors affecting their well-being, and the role of the nurse in promoting wellness both for the client and family. Clinical experience concurrent.

Prerequisite: NRS 624.

NRS 628 Clinical Practicum: Adult and Aging Family (2-8)

Designed to assist the student in developing expertise as a clinical specialist in a selected area of the adult and aging family. Includes intensive clinical practice under the guidance of a preceptor.

Prerequisite: NRS 626.

NRS 645 Growing Family I (2-4)

Focuses on theories central to the parent-child relationship and on concepts relevant to their response to health care and illness. Application focused on the child and parents interacting with the advanced-practice nurse in a variety of settings.

NRS 646 Growing Family II (2-4)

Examines current issues in pediatric health care based on changes in society and the health care system. Focus on application of this knowledge by the advanced-practice nurse in a variety of settings.

Prerequisite: NRS 645.

NRS 651 Advanced Physical Assessment (3)

In-depth review of physical assessment skills and knowledge to prepare the student to successfully conduct a complete history and physical throughout patient's life span. Incorporates lecture, audiovisual aids, laboratory skills practicum, and individual study.

NRS 652 Family Primary Health Care I (5)

Introduction to the problem-oriented approach to assessment and diagnosis. Prepares the nurse practitioner student as primary-care clinician, evaluator, and educator through integration of the traditional nursing and nurse practitioner roles.

Prerequisite: NRS 651.

NRS 653 Family Primary Health Care II (7)

Aspects of health maintenance and promotion and evaluation of common health problems—integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRS 652.

NRS 654 Family Primary Health Care III (8)

Advanced course in continuing the aspects of health maintenance and promotion and evaluation of common health problems—integrating the student's understanding of pathophysiology, epidemiology, pharmacology, diagnostic studies, and physical assessment skills to formulate diagnoses (medical and nursing) and management plans.

Prerequisite: NRS 653.

NRS 655, 656 Family Primary Health Care IV, V (8, 4)

Final course in the family primary health care series, aimed at preparing the nurse practitioner student to function independently and collaboratively with other health professionals within a family-oriented setting.

Prerequisite: NRS 654.

NRS 680 Intermediate Statistics (3)

Emphasis on understanding selection and application of statistical procedures as applied to nursing science and practice. Selected topics in ANOVA, multiple regression, and other multivariate statistical procedures. Interpretation of computer output.

NRS 681 Research Methods I (3)

Guides the student in understanding scientific thinking and research methods beyond the introductory level. Research literature in nursing and related fields used to illustrate the application of principles of research. Development of a research area of interest by identifying a research problem and reviewing the relevant literature.

Prerequisite: NRS 680.

NRS 682 Research Methods II (2)

Application of research concepts in the completion of a research proposal. Focuses on design issues and management and analysis of data.

Prerequisite: NRS 681.

NRS 697 Research (3)**NRS 698 Thesis (2)**

IV

FACULTY OF RELIGION

Statement of Mission

Required and Elective Courses

Faculty of Religion

STATEMENT OF MISSION

The Faculty of Religion is committed to the following four tasks as informed by the teachings and practice of the Seventh-day Adventist heritage and mission:

1. To promote Christian wholeness for faculty and students in their personal and professional lives and witness.
2. To provide a religion curriculum with the following emphases:
 - Foundational Studies (biblical, theological, mission, and historical).
 - Ethical Studies (personal, professional, and social).
 - Relational Studies (applied theology, clinical ministry, and psychology of religion).
3. To foster and support research in the foundational, ethical, and relational disciplines.
4. To serve the University, the church, and the larger world community by personal involvement in fostering deeper spirituality, theological integrity, and social justice

COURSES

FOUNDATIONAL STUDIES

The student is required to choose *one* of the following four courses:

RELF 406 Adventist Beliefs and Life (2-3)
Fundamental tenets of Seventh-day Adventist faith and the lifestyle that such faith engenders.
Additional project required for third unit.

RELF 423 Loma Linda Perspectives (2-3)
History and philosophy of Loma Linda University as a Christian health-sciences institution that fosters human wholeness.
Additional project required for third unit.

RELF 436 Adventist Heritage and Health (2-3)
Origin and development of Seventh-day Adventist interest in health, from the background of nineteenth-century medicine and health reform to the present.
Additional project required for third unit.

RELF 437 Current Issues in Adventism (2-3)
Selected theological, ethical, and organizational questions of current interest in Adventism, with the goal of preparation for active involvement in the life of the Seventh-day Adventist church. Recommended for students with a Seventh-day Adventist background.
Additional project required for third unit.

ETHICAL STUDIES

The following course is required:

RELE 457 Christian Ethics and Health Care (2-3)
Ethical issues in modern medicine and related fields from the perspective of Christian thought and practice.
Additional project required for third unit.

RELATIONAL STUDIES

One course is required from RELR:

RELR 398 Practicum in Integrative Health Care (2)
Practical study of knowledge, values, attitudes, and skills contributing to student's personal growth and to healing of the patient. Special attention to personal wholeness, including physical, mental, relational, and spiritual dimensions.
For off-campus program only.

RELR 408 Christian Perspectives on Marriage and the Family (2-3)
From a Christian perspective, an overview of the family lifecycle.
Additional project required for third unit.

RELR 409 Christian Perspectives on Death and Dying (2-3)

From a Christian perspective, consideration of the meaning of death, including: the process of dying, cultural issues regarding death and dying, grief and mourning, suicide, and other related issues.

Additional project required for third unit.

RELR 415 Christian Theology and Popular Culture (2-3)

Concepts and practices in popular culture, examined from a Christian perspective.

Additional project required for third unit.

RELR 427 Crisis Counseling (2-3)

Crisis phenomena, current crisis theory, a Christian model of crisis care, and the dynamics and practices of crisis care.

Additional project required for third unit.

RELR 429 Cultural Issues in Religion (2-3)

Study of similarities and differences between European-American culture and "minority" cultures in America, and the differences pertaining to the way religion is perceived and practiced.

Additional project required for third unit.

RELR 475 Art of Integrative Care (2-3)

The integration of psychosocial and spiritual care in the clinical setting.

Additional project required for third unit.

RELR 499 Directed Study (1-3)

Prerequisite: Consent of the instructor.

ELECTIVES

Additional religion courses are available as electives. Please see the Faculty of Religion BULLETIN, which may be obtained from the Office of the Dean of the Faculty of Religion.

V

DIVISION OF GENERAL STUDIES

LLU Philosophy of General Education

LLU Criteria for General Education Courses

LLU General Education Requirements

LLU General Education Courses Booklet

Division of General Studies

The Division of General Studies, directed by the Dean of the Graduate School, offers General Education courses that contribute to the fulfillment of requirements that apply to the Bachelor of Science degree programs in the Graduate School and the Schools of Allied Health Professions, Dentistry, Nursing, and Public Health. In addition, the Schools offer a variety of General Education courses that are open to students across all schools. The Division of General Studies also provides oversight for courses that may be selected to enrich a student's academic experience but which do not fulfill Loma Linda University General Education requirements.

LOMA LINDA UNIVERSITY PHILOSOPHY OF GENERAL EDUCATION

As a Seventh-day Adventist health-sciences institution, Loma Linda University seeks to exemplify a life of service and sensitivity beyond the requirements of academic excellence within a professional discipline. With its rich spiritual heritage, the University places special emphasis on educating its students for a life of service in a global community.

General education at Loma Linda University consists of courses, lectures, programs and activities coordinated with the intent to integrate faith and learning. In addition to the basics of cultural heritage and diversity, scientific inquiry and analysis, communication, and wellness, the curriculum emphasizes the University's spiritual heritage as well as moral and ethical decision-making that is grounded in Christian principles.

Thus, a general education is considered to be the cornerstone upon which students begin cultivating their abilities to:

1. Understand the fundamental Christian principles and Adventist heritage that undergird Loma Linda University.
2. Make informed moral and ethical decisions.
3. Incorporate critical thinking skills into personal and professional experience.
4. Value individuals with diverse capabilities and ideological, ethnic, gender, and generational perspectives.
5. Communicate effectively.
6. Undertake scientific inquiry and analysis.
7. Appreciate the contributions of the arts and humanities to society.
8. Examine the historical basis of the health sciences professions.
9. Develop self-awareness through balance of mental, physical, social, and spiritual aspects of daily living.

10. Model servant-leadership in health care as exemplified by Jesus of Nazareth.

The Loma Linda University philosophy of general education creates a unique learning environment committed to the concept of human wholeness. Faculty are selected who embrace the spirit as well as the specifics of general education and who purpose to extend its goals into all aspects of university life—from the residence hall programs to the core of professional studies—thus adding an invisible curriculum to the required course offerings. It is this spirit in tandem with the specifics of a liberal arts education that inspires students to achieve academic excellence, value diversity, pursue lifelong learning, and live to bless others.

LLU CRITERIA FOR GENERAL EDUCATION COURSES

1. The course assists the health-sciences student in cultivating abilities in one or more of the ten aspects described in the Loma Linda University Philosophy of General Education for B. S. degrees.
2. The primary focus of the course deals with the knowledge and understanding of a subject area within one of the following domains described in the Loma Linda University General Education requirements for B.S. degrees.
3. The course is based on appropriate prerequisites, particularly when offered at the upper-division level.
4. The course must be open to all appropriately prepared B.S. degree students of Loma Linda University for General Education credit.
5. Courses transferred to Loma Linda University for General Education credit from another accredited institution must fall within one of the domains described in Loma Linda University's General Education requirements for the B.S. degree.

LLU GENERAL EDUCATION REQUIREMENTS (68 quarter credits)

In harmony with its commitment to wholeness, Loma Linda University requires all students graduating with a baccalaureate degree to complete a minimum of 68 quarter credits of General Education, which are integrated into the entire undergraduate program. Requirements are organized into five domains, as outlined in the following pages.

DOMAIN 1: SPIRITUAL AND CULTURAL HERITAGE (28-32 quarter credits)

Study of spiritual heritage must include a minimum of 4 credits in religious studies per year of full-time course work (or the equivalent) while attending a Seventh-day Adventist college or university and must include a religion course dealing with the spiritual heritage of the philosophy and mission of Loma Linda University. Four of the units in religious studies may include a course dealing specifically with the religious, moral, and ethical questions of health care. Other courses may be selected from such content areas as Christian ethics; clinical ministry; comparative religions; and doctrinal, historical, and systematic theology. Required credits in spiritual heritage must be earned from the Seventh-day Adventist institution.

The study of cultural heritage must include a minimum of 12 credits. The credits in cultural heritage must be selected from two of the following content areas: civilization/history, fine arts, literature, modern language, performing/visual arts (not to exceed 2 quarter credits), or philosophy.

DOMAIN 2: SCIENTIFIC INQUIRY AND ANALYSIS (24-32 quarter credits)

Scientific inquiry and analysis encompasses both the natural and social sciences. Content areas from which students must choose 12-16 credits within the natural sciences include biology, chemistry, geology, mathematics, physics, and statistics. No

more than 6 credits in any one area may count toward the natural sciences requirements.

The study of social sciences must include one course (or components integrated into several courses) dealing specifically with issues of human diversity among peers. The remainder of credits in the social sciences must be selected from the following content areas: anthropology, economics, geography, political science, psychology, and sociology.

DOMAIN 3: COMMUNICATION (9-13 quarter credits)

Course work in communication must include a complete sequence in freshman English which meets the baccalaureate degree requirements of a four-year college or university. Other areas of study in communication may include courses in computer information systems, critical thinking, and public speaking.

DOMAIN 4: HEALTH AND WELLNESS (2-6 quarter credits)

To encourage the pursuit of lifelong leisure activities and wellness, the study of health and wellness must include at least two different physical activities totaling a minimum of 1 quarter credit, and one course in personal health or nutrition. Additional credits may include other areas of health, nutrition, and physical fitness.

DOMAIN 5: ELECTIVES

Electives from the previous four domains may be selected to complete the General Education minimum requirements of 68 quarter credits.

LLU GENERAL EDUCATION COURSES BOOKLET

A complete listing of courses offered at this University to meet General Education requirements is included in the *Loma Linda University General Education Philosophy, Requirements, and Courses* booklet. For information regarding General Education courses, the student should consult his/her academic adviser.

SCHOOL ALUMNI ASSOCIATION

The Loma Linda University School of Nursing Alumni Association (LLUSNAA) has an office in West Hall. A board of officers and directors carries out the goals and ongoing activities of the association. At the time of graduation, new graduates are welcomed into the association. Associate membership may be extended to graduates of other accredited schools who are members of the profession in good standing and who share the interests, ideals, and purposes of the alumni association.

Purpose

The purpose of the LLUSNAA is to foster alumni unity, mobilize their support, and assist in an organized fashion to encourage continued interest in and commitment to the programs of the School of Nursing. The association promotes the missions of the Seventh-day Adventist church, the School of Nursing, and the University. The goals of the association are to:

1. Promote communication among alumni of the School of Nursing and Graduate School nursing majors.
2. Foster the advancement of education and science within the programs of the School of Nursing.
3. Support alumni nurses in mission programs at home and abroad.
4. Recognize excellence in students and alumni through awards.
5. Provide financial aid to students in School of Nursing programs.
6. Encourage professional growth by providing a quality, annual continuing education program.
7. Operate the HOUSE OF THRIFT, 24871 Redlands Boulevard, Loma Linda, to relieve poverty within the community and to provide a source of funds to finance the above objectives.

Activities

Alumni have a long and distinguished record of professional service, both in the United States and in many foreign countries. Included among the positions and activities of graduates are the following.

- Administration and supervision of nursing services.
- Deans and faculties of schools of nursing.
- Staff nursing in hospitals and community health agencies.
- Primary care services.
- Office nursing.
- Health services in colleges, secondary schools, and primary schools.
- United States military service.
- International health services.
- Church-sponsored and voluntary community-health activities.

ACCREDITATION STATUS

THE UNIVERSITY

Founded as College of Evangelists 1905-06. Chartered as College of Medical Evangelists by the state of California December 13, 1909. Accredited by Northwest Association of Secondary and Higher Schools April 7, 1937. Accredited by WASC (Western Association of Schools and Colleges) (prior to January 1962, Western College Association) February 24, 1960. Became Loma Linda University July 1, 1961. Professional curricula started and approved as indicated.

THE GRADUATE SCHOOL: Started in 1954. Accredited through University accreditation.

THE PROFESSIONS

CLINICAL LABORATORY SCIENCE (FORMERLY: MEDICAL TECHNOLOGY): Started in 1937. Approved by the Council on Medical Education of the American Medical Association since August 28, 1937. Currently approved by the Commission on Accreditation of Allied Health Education Programs in collaboration with the National Accrediting Agency for Clinical Laboratory Sciences.

CYTOTECHNOLOGY: Started in 1982. Initial approval by the Commission on Accreditation of Allied Health Education Programs in collaboration with the Cytotechnology Programs Review Committee January 20, 1983.

DENTAL HYGIENE: Started in 1959. Approved by the Commission on Dental Accreditation of the American Dental Association since September 7, 1961.

DENTISTRY: Started in 1953. Approved by the Commission on Dental Accreditation of the American Dental Association since May 23, 1957.

DIAGNOSTIC MEDICAL SONOGRAPHY: Started in 1976 as diagnostic medical sonography. Approved by the Joint Review Committee on Education in Diagnostic Medical Sonography October 24, 1985.

DIETETIC TECHNOLOGY: Started in 1988. The Dietetics Technology Program is currently granted accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetics Association April 25, 1988.

EMERGENCY MEDICAL CARE: Started in 1993 as a baccalaureate degree program for paramedics, respiratory therapists, and other allied health professionals desiring education, science, or management credentials in emergency medical services.

ENDODONTICS: Started in 1967. Approved by the Commission on Dental Accreditation of the American Dental Association since December 1969.

HEALTH INFORMATION MANAGEMENT: Started as medical record administration in 1963. Approved by the Council on Medical Education of the American Medical Association since December 1, 1963. Currently approved by the Commission on Accreditation of Allied Health Education Programs in collaboration with the American Health Information Management Association.

MEDICAL RADIOGRAPHY: Started in 1941 as radiological technology. Approved by the Council on Medical Education of the American Medical Association November 19, 1944. Currently approved by the Joint Review Committee on Education in Radiologic Technology and the California State Department of Health Services.

MEDICINE: Started in 1909. Approved by the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association since November 16, 1922..

NUCLEAR MEDICINE: Started in 1970. Approved by the Council on Medical Education of the American Medical Association June 23, 1973. Currently approved by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology.

NURSING: Hospital school started at Loma Linda in 1905. Hospital school added at Los Angeles in 1924. Collegiate program in nursing organized in 1948. Accredited by the National Nursing Accrediting Service December 10, 1951, with approval continuing under the National League for Nursing until 2001. Initial 1917 approval of the California State Board of Health extended until college program approved July 1, 1952, by the California Board of Registered Nursing. California Board of Registered Nursing approval since 1952. Public health nursing preparation recognized in 1959. School accredited by the Commission on Collegiate Nursing Education (CCNE) since 1999.

NUTRITION AND DIETETICS: Started in 1922 as a certificate program; baccalaureate degree conferred 1932-54; graduate program offered since 1954. Internship program continuously approved by The American Dietetic Association from 1957 through 1974; reestablishment of baccalaureate degree program authorized October 1971. Since 1974 the Coordinated Program in Dietetics has been granted accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetics Association.

OCCUPATIONAL THERAPY: Started in 1959. Initial approval by the Council on Medical Education of the American Medical Association June 10, 1960. Full approval March 30, 1962. Currently approved by the Accreditation Council for Occupational Therapy Education.

OCCUPATIONAL THERAPY ASSISTANT: Started in 1988. Approved by the Commission on Accreditation of Allied Health Education Programs in collaboration with The American Occupational Therapy Association (AOTA) April 13, 1989. Currently accredited by the Accreditation Council for Occupational Therapy Education of the AOTA.

ORAL AND MAXILLOFACIAL SURGERY: Started in 1978. Approved by the Commission on Dental Accreditation of the American Dental Association since 1981.

ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS: Started in 1960. Approved by the Commission on Dental Accreditation of the American Dental Association since May 1965.

PEDIATRIC DENTISTRY: Started in 1993. Approved by the Commission on Dental Accreditation of the American Dental Association since December 1972.

PERIODONTICS: Started in 1979. Approved by the Commission on Dental Accreditation of the American Dental Association since December 1972.

PHLEBOTOMY: Started in 1994. Accredited/approved April 1997 by the California Department of Health, Laboratory Field Services; and by the National Accrediting Agency for Clinical Laboratory Science (NAACLS).

PHYSICAL THERAPIST ASSISTANT: Started in 1989. Approved by the American Physical Therapy Association April 4, 1990.

PHYSICAL THERAPY: Started in 1941. Initial approval by the Council on Medical Education of the American Medical Association June 6, 1942. Currently approved by the American Physical Therapy Association.

PHYSICIAN ASSISTANT: Started in 2000. Provisional Accreditation granted October 20, 2000, by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Effective January 1, 2001, CAAHEP was succeeded by the Accreditation Review Commission on Education for Physician Assistant (ARC-PA).

PROSTHODONTICS: Started in 1993. Approved by the Commission on Dental Accreditation of the American Dental Association since February 1995.

PUBLIC HEALTH: Started in 1948; reorganized in 1964. Approved by the American Public Health Association June 23, 1967. Currently approved by the Council on Education for Public Health.

RADIATION THERAPY: Approved by the Council on Medical Education of the American Medical Association December 1, 1974. Currently approved by the Joint Review Committee on Education in Radiologic Technology.

RESPIRATORY CARE: Started in 1971. Initial approval by the Council on Medical Education of the American Medical Association September 1972. Full approval June 1973. Currently approved by the Commission on Accreditation of Allied Health Education Programs in collaboration with the Joint Committee on Accreditation for Respiratory Care Education.

SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY: Approved by the American Speech-Language-Hearing Association June 1, 1991.

SURGICAL TECHNOLOGY: Started in 1995. Approval by the Council on Medical Education of the American Medical Association December 1972. Currently approved by the Commission on Accreditation of Allied Health Education Programs in collaboration with the Accreditation Review Committee on Education in Surgical Technology.

ACCREDITING AGENCIES

THE UNIVERSITY

Loma Linda University is accredited by WASC.

Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges
985 Atlantic Avenue, Suite 100
Alameda, CA 94501
Phone: 510 / 748-9001
FAX: 510 / 748-9797
Web site: www.wascweb.org
Email: wascsr@wascsenior.org

WASC is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Commission on Recognition of Postsecondary Accreditation.

In addition to WASC, the following agencies accredit specific University schools or programs*:

GRADUATE SCHOOL

Drug and Alcohol Counseling

California Association of Alcoholism and Drug Abuse Counselors (CAADAC)
3400 Bradshaw Road, Suite A5
Sacramento, CA 95827
Phone: 916 / 368-9412
FAX: 916 / 368-9424

THE UNIVERSITY LIBRARIES

Major library resources

Four major library resources on campus support the University's academic programs. These are:

- the Del E. Webb Memorial Library,
- the Jorgensen Learning Resources Center,
- the Jesse Medical Library and Information Center, and
- the Veterans Administration Library Services.

In addition to these facilities, specialized libraries are located in various medical and school departments on campus.

Central library

The Del E. Webb Memorial Library is the central library of Loma Linda University. Its historical roots go back to 1907, when a small library collection was started in a room of the old Loma Linda Sanitarium. In 1953 the growing collection was moved to its own building on the Loma Linda campus. Then in 1981, a new library building was built from a grant by the Del E. Webb Foundation, giving the library a total floor space of 87,670 square feet. This structure now houses the main library, while the old structure is now shared between the Department of Archives and Special Collections and the bound retrospective journals. As of June 2001, the library has a total collection of 410,807 books, bound and current journals/periodicals, and media items (197,303 books; 125,577 bound journals, 1,420 current periodical subscriptions, 349 nonsubscription periodicals; and 84,158 media items).

Library mission

The mission of the Library is to stimulate and support the information needs of the University's instructional, research, and service programs. To this end the Library provides a full range of information support services, including, but not limited to, reference, circulation, reserve, access to the internet, and hundreds of online databases, e.g., full-text, automatic, selective dissemination of information (SDI) services; database end-user training programs; library orientations; interlibrary loans; photocopy and pull services; a microcomputer laboratory; a learning service resource center; class-integrated library instruction programs; and services that support distance education and University outreach programs.

Worldwide access

The Library provides access to other collections worldwide using internet technologies. It also participates in a number of national and regional networks. One of these is the National Network of the Libraries of Medicine, founded by the National Library of Medicine. This structure is divided into eight regional sections, one of which is the Pacific Southwest Region. The Del E. Webb Memorial Library belongs to this region and is the designated medical resource library for San Bernardino and Riverside counties. Local library cooperatives include the IEALC (Inland Empire Academic Library Cooperative) and SIR-CULS (San Bernardino, Inyo, Riverside Counties United Library Services). Membership in these cooperatives gives our students, faculty, and staff access to the collections of these libraries. Archives and special collections

Archives and special collections

The Department of Archives and Special Collections is the central repository of information on the history of Loma Linda University, the health sciences, and major collections on Adventism. In addition to print materials which include rare books, theses, and dissertations, there are microforms, sound recordings, and several thousand photographs. Searchable digitized indexes for various document files are also available via the Library's web site. The collection also includes 14,000 linear feet of archival materials, which include papers of various denominational and University officials, as well as the congressional papers of the Honorable Jerry and Shirley Pettis.

**ELLEN G. WHITE ESTATE
LOMA LINDA BRANCH OFFICE**

Also located in the Library is a branch office of the Ellen G. White Estate. It contains 60,000 type-written pages of Ellen G. White's letters and manuscripts; 4,600 of her published articles; and several different files of materials pertaining to various aspects of her life and ministry. A computerized concordance to her published writings is available to researchers. A link to a bibliography of the different variant editions of her works is available on the Library's home page.
