

Program Description

The dynamics within the healthcare industry are creating an information intensive environment that professionals must navigate as they deliver healthcare to patients. Clinical and non-clinical professions in the industry will be required to be knowledgeable and proficient in the development and usage of information technology. The future success or failure of healthcare organizations will be predicated on their abilities to effectively and efficiently manage the valuable asset of information. This curriculum blends the topics of leadership, system theory and management, technology, data management, and regulatory constraints so as to prepare graduates for critical leadership roles in healthcare organizations. As informatics leaders, graduates will assist in developing information systems in healthcare that positively impact patient care at an individual, local and national level.

Prospective students would come from a variety of education backgrounds, including, but not limited to health information management, nursing, radiology, patient financial services, health care government agencies, clinical and administrative decision support, computing services, and pharmacy. Employment opportunities upon completion would include a variety of challenging prospects, including, hospitals, clinics, health information exchanges, elevated decision support, database administrators, clinical documentation specialists, and consultants.

JOB OPPORTUNITIES

As the health care industry develops, under vastly expanding regulatory mandates, there is a need for information systems that will meet the needs of all stakeholders and, the need to educate health informatics professionals will steadily increase. The American Medical Informatics Association (AMIA) boasts a membership of over 4000 members dedicated to advancing the health care industry through the deployment and diffusion of technology into the health care process. AMIA projects a need for more than 50,000 new health IT workers in the next five to seven years (<http://www.amia.org>). Additionally, the Bureau of Labor Statistics expects the job outlook for Health Service Managers to increase at a rate of 22% over the next seven years.

PROGRAM MISSION

In harmony with the mission of Loma Linda University and the School of Allied Health Professions, the Department of Health Informatics and Information Management is dedicated to:

Educating competent health informatics professionals.

Promoting the health informatics management profession.

Extending the current knowledge of health informatics professionals at neighboring health care facilities.

Challenging students and department faculty to maintain high standards of ethical and professional behavior.

Encouraging students and faculty to seek a meaningful relationship with God and a balanced Christian lifestyle.

Program Length

7 quarters (1 3/4 years)

Possible Careers

Employment opportunities include hospitals, clinics, health information exchanges, elevated managerial roles, system development, project management, electronic health

record system specialists, clinical decision support, database administrators, clinical documentation specialists, and consultants.

Application Deadlines

Quarter	Application Open	Priority Deadline	Final Deadline
Autumn of 2020	Jan 1, 2020	—	Jul 1, 2020

Admissions Requirements

- Provide evidence of completion of a bachelor's degree from an accredited U.S. college/university or the foreign equivalent of a bachelor's degree
- Provide three letters of recommendation that indicate a strong academic background and professional readiness
- Interview, if deemed necessary
- Complete the LLU application, including personal statement, and submit application fee.
- Regardless of nationality or citizenship, an applicant whose native language is not English or whose secondary education has been given outside the United State, is required to pass a test of English proficiency. Test results/scores are to be sent directly to LLU from the testing service. TOEFL scores are valid for two years from the test dates.
- Minimum GPA of 3.0. The Graduate Record Exam (GRE) may be requested and considered for GPA's less than 3.0.

Discipline Accrediting Agency

Loma Linda University is regionally accredited by Western Association of Schools and Colleges (WASC) Accrediting Commission for Senior Colleges and Universities.

Expected Cost of Attendance

Academic Year

Year of Program:	Year 1	Year 2
Tuition	\$16,824	\$18,226
Fees	\$2,715	\$3,620
Books & Supplies	\$2,005	\$1,135
Instruments	—	—
Misc (e.g., Boards, Licensing exam, Uniforms)	—	—
Total	\$21,544	\$22,981

Notes

Expected costs for the academic year are based on full time attendance. From year to year, increases are anticipated consistent with inflation in the professional education

sector.

The cost of attendance varies from year to year. Please contact the office of Student Finance for up-to-date costs.

Estimated Living Expenses

Academic Year , off campus, with a roommate

Year of Program:	Year 1	Year 2
Months enrolled	9	12
Room & Board	\$12,645	\$16,860
Transportation	\$2,880	\$3,840
Personal Expenses	\$2,070	\$2,760

Notes

- Amounts are what a student can apply to borrow for the number of months shown in each academic year based on living off campus with a roommate and not with a relative.
- International students need to calculate 12 months of living expenses based on the numbers listed here.
- In general, to qualify for financial aid a student must be enrolled at least half time taking degree requirements. Half time is 6 units in a quarter for undergraduate programs and 4 units in a quarter for graduate programs.
