

# EXPOSURE/QUARANTINE GUIDANCE (FOR ALL STUDENTS) APRIL 21, 2022 (vs. 7)

† Either an antigen test or nucleic acid amplification test (NAAT) can be used

\*Students infected with SARS-CoV-2 within the last 90 days do not need to test unless symptomatic

\*\* High-risk exposures may be deemed higher risk for transmission, such as an immunocompromised individual, time with an intimate partner, in a household with longer periods of exposure, or while performing unmasked activities with increased exertion and/or voice projection or during prolonged close face-face contact
