\* School of Medicine applicants are typically identified by LLU as summer quarter applicants but have been included here to provide institutional totals.

\*\* This number includes approximately 300 CME applicants who were not appropriately transferred from university certificate to school certificate status.

Note: The dramatic increase in applications in years 4 and 5 are substantially due to both the Schools of Medicine and Dentistry including their entire eligible applicant pools, as opposed to previously reporting only accepted applicants into the University's data system.
